Town of Marineland Regular Meeting Minutes

July 21, 2022

Mayor Angela TenBroeck
Commissioner Gary Inks
Commissioner James Townsend
Dennis Bayer, Town Attorney
Suzanne Dixon, Town Manager
Janis Fleet, Town Planner
Greg Johnson, Town Financial Director
Lexy Taylor, Town Clerk
Chris Kelley, Marineland Marina Manager
Teri Webley, Marineland Marina Office Manager
Members of the Public

1. The meeting was called to order by Mayor TenBroeck @ 6:02PM.
 - Pledge of Allegiance
2. Additions, Deletions, and Modifications to the Agenda
 - None
3. Announcements by the Mayor or Commissioners
4. Recognitions, Proclamations, and Presentations
 - None
5. Community Outreach
 - None.
6. Consent Agenda
 - The motion to approve the consent agenda and June meeting minutes was made by Commissioner Inks/2nd Commissioner Townsend. The motion carried with no objections.
7. General Business
 - A. Consideration of Purchase of Microsoft Office
 - i. Clerk Taylor discussed the purchase of the new Town computer and the ability to be able to edit Town documents as needed. Clerk Taylor suggested the Town purchase Microsoft Office for document editing. Clerk Taylor will look into pricing for Microsoft Office for all Town staff and a computer protection program to update the Commission at the next meeting. The motion to approve Clerk Taylor the opportunity to look into purchasing Microsoft Office and a computer protection program for 7-10 users with a budget of \$150/month maximum was made by Commissioner Inks/2nd Commissioner Townsend. The motion carried with no objections.
 - B. Consideration of \$500/month Office Supplies Budget
 - i. Clerk Taylor discussed the need for office supplies. Financial Director Johnson informed the Commission of the budgeted line item for office supplies of \$850 for 2022. The motion to increase the office supply budget by \$1250 per year was made by Commissioner Inks/2nd Commissioner Townsend. The motion carried with no objections.
 - C. Interlocal Agreements
 - i. Planner Fleet informed the Commission of the Interlocal Agreements to be adopted from Flagler County. Adam Mengel from Flagler County discussed the Interlocal Agreements with the Commission. The motion to table adopting the Interlocal Agreements until August's Town meeting was made by Commissioner Inks/2nd Commissioner Townsend. The motion carried with no objections.

C. Comp Plan Update

- i. Planner Fleet informed the Commission of the Comp Plan comments from DEO. Planner Fleet received input from the Commission and Town constituents of investigative wording change and discussed moving forward with advertising for August adoption hearing.
- ii. Planner Fleet informed the Commission of building permit violations issued by the Office of Floodplain Management and Flagler County's letter in response.
- iii. Planner Fleet informed the Commission of the need for a 5 year Capital Improvement Plan.

D. Adoption of the Tentative Millage Rate 10.000 Mills

- i. Financial Director Johnson discussed adoption of the tentative millage rate of 10.000 mills with the Commission. The motion to approve the tentative millage rate of 10.000 mills and a rollback rate of 9.4313 mills was made by Commissioner Townsend/2nd Commissioner Inks. The motion carried with no objections.

8. Additional Reports & Comments:

- a. Town Financial Director Johnson Reports/Comments
 - i. Director Johnson discussed the monthly Town finances with the Commission. Director Johnson will execute a fixed asset inventory list for the Town.
- b. Town Manager Dixon Reports/Comments
 - i. Manager Dixon informed the Commission of special event applications. The motion to approve the special events as presented by Manager Dixon was made by Commission Inks/2nd Commissioner Townsend. The motion carried with no objections.
 - ii. Manager Dixon informed the Commission of the election status and advertisements for the notice of election.
- c. Town Planner Fleet Reports/Comments
 - i. Planner Fleet discussed the water situation between Town stakeholders with the Commission.
 - ii. Planner Fleet and Manager Dixon informed the Commission of an MS150 special event request for a temporary alcohol license. The motion to approve the MS150 temporary alcohol license was made by Commissioner Townsend/2nd Commissioner Inks. The motion carried with no objections.
- d. Town Clerk Reports/Comments
 - i. Clerk Taylor informed the Commission of the progress in receiving Town credit cards.
- e. Marina Manager Reports/Comments
 - i. No comment.
- f. Town Attorney Reports/Comments
 - i. Attorney Bayer informed the Commission of progress of annexation into the Town.

9. Public Comment

- No comment.

10. Commissioner Reports/Comments

- a. Commissioner Inks
 - i. The July stakeholders meeting was cancelled.
- b. Commissioner Townsend
 - i. No reports.

The next regular Town meeting will be held August 18, 2022 at 6:00pm.

The next quarterly CRA meeting will be held October 20, 2022 at 5:30pm.

The motion to adjourn was made by Commissioner Inks/2nd Commissioner Townsend. The meeting was adjourned at 7:32pm.

Respectfully submitted by Lexy Taylor, Town Clerk.

St Augustine, FL 32080

Greetings,

Please find enclosed the back-billing of the Marineland Marina's water and sewer connection and usage charges. We have broken the charges down into two invoices: one invoice for connection charges and the other invoice for utility usage from 6/1/2021 to 7/1/2022. The due date of both invoices is 8/31/2022.

Below are actual meter readings over the billing period for your reference:

Date			Reading	Usage
6/1/2021			0	41,910
7/1/2021			41,910	27,540
8/1/2021			69,450	31,840
9/1/2021			101,290	37,090
10/1/2021			138,380	40,780
11/1/2021			179,160	40,820
12/1/2021			219,980	51,430
1/1/2022			271,410	27,390
2/1/2022			298,800	33,270
3/1/2022			332,070	36,370
4/1/2022			368,440	32,950
5/1/2022			401,390	31,410
6/1/2022			432,800	21,800
7/1/2022			454,600	

Lastly, another invoice for the upcoming meter reading of 8/1/2022 will be forthcoming with the same due date, 8/31/2022, and will arrive by mail as soon as processing is completed.

We look forward to serving the utility needs of Marineland Marina.

Sincerely,

Vic ODell, Billing Manager

TO: Town Commission
FROM: Janis K. Fleet, AICP
DATE: August 10, 2022
SUBJECT: Marineland Comprehensive Plan Adoption
Public Hearing – Second and Final Reading of the Ordinance Adopting the
Amendments to the Marineland Comprehensive Plan

The proposed Marineland Comprehensive Plan was submitted to the Department of Economic Opportunity (DEO) for review. On July 14th, DEO sent the attached letter to the Mayor with the Department's objections, recommendations, and comments to the proposed Marineland Comprehensive Plan. The Department had 2 objections to the proposed Marineland Comprehensive Plan. Below are 2 policies and a Five Year Schedule of Capital Improvements that are being proposed to be added to the Marineland Comprehensive Plan to address DEO's objections. The policies were recommendations from DEO staff and the Five Year Schedule of Capital Improvements was developed through discussions with the Town's Finance Director, Attorney and Marina Manager. The Commission can revise the proposed policies and the Five Year Schedule of Capital Improvements prior to adoption of the Comprehensive Plan

Policies to be added to the Conservation/Coastal Management Element

- E.1.11.14 The Town shall continue to require development and redevelopment be consistent with the flood construction requirements in the Florida Building Code and applicable flood plain management regulations set forth in 44 C.F.R. part 60.
- E.1.11.15 The Town shall take steps to participate in the National Flood Insurance Program Community Rating System, administered by FEMA. The initial step will be adopting the state model flood damage prevention ordinance.

Proposed Five Year Schedule of Capital Improvements 2022 - 2027

Project	Cost	Year	Funding Source
Marina Improvements – Phase 3	\$1,200,000	2023	Grants (Flagler County, FIND, FWC, BIG)
Install Solar Lighting	\$ 10,000	2023	CRA
Pave Tolstoy Drive	\$ 25,000	2024	CRA
Drainage Improvements	\$ 75,000	2027	CRA
Install Generators for Critical Facilities	\$ 25,000	2024	Grants
Water and Wastewater Improvements	\$1,000,000	2027	CRA, Grants, Developers

An advertisement meeting State Statutes, was published in the Palm Coast New-Tribune, notifying the public of the intent of the Town Commission to adopt amendments to the Marineland Comprehensive Plan and to hold the Second and Final Reading of the Ordinance adopting the changes to the Comprehensive Plan. Attached is the Ordinance with the proposed amendments to the Comprehensive Plan. After the public hearing and action on the ordinance, the Commission needs to direct staff to transmit the adopted Comprehensive Plan to the DEO and other State agencies for compliance review.

July 14, 2022

The Honorable Angel Tenbroeck
Mayor, Town of Marineland
176 Marina Drive
St. Augustine, Florida 32080-8619

Dear Mayor Tenbroeck:

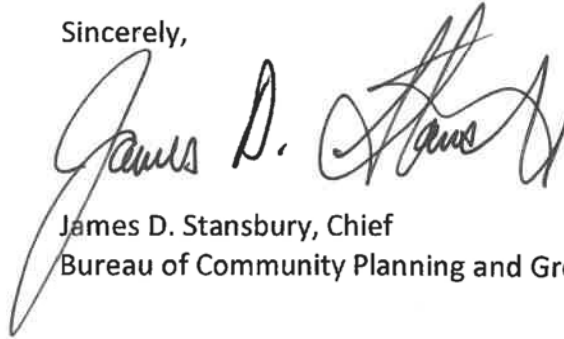

The Department of Economic Opportunity (“Department”) has completed its review of the proposed comprehensive plan amendment for the Town of Marineland (Amendment No. 22-01ER), which was received and determined complete on June 7, 2022. We have reviewed the proposed amendment in accordance with the state coordinated review process set forth in Sections 163.3184(2) and (4), Florida Statutes (F.S.), for compliance with Chapter 163, Part II, F.S.

The attached Objections, Recommendations, and Comments Report outlines our findings concerning the amendment. We have identified two objections and have included recommendations regarding measures that can be taken to address the objections.

The Town should act by choosing to adopt, adopt with changes, or not adopt the proposed amendment. For your assistance, we have enclosed the procedures for final adoption and transmittal of the comprehensive plan amendment. **The second public hearing**, which shall be a hearing on whether to adopt one or more comprehensive plan amendments, **must be held within 180 days** of your receipt of the Department’s attached report, or the amendment will be deemed withdrawn unless extended by agreement with notice to the Department and any affected party that provided comment on the amendment pursuant to Section 163.3184(4)(e)1., F.S.

Department staff is available to assist the Town to address the objections. If you have any questions related to this review, please contact Barbara Powell, Regional Planning Administrator, by telephone at (850) 717-8504 or by email at barbara.powell@deo.myflorida.com.

Sincerely,

A handwritten signature in black ink, appearing to read "James D. Stansbury". The signature is fluid and cursive, with a large initial "J" and "S".

James D. Stansbury, Chief
Bureau of Community Planning and Growth

**Objections, Recommendations and Comments Report
Proposed Comprehensive Plan Amendment
Marineland 22-01ER**

The Department of Economic Opportunity has identified two objections regarding the Town of Marineland's proposed comprehensive plan amendment. The objections are provided below, along with recommended actions the Town could take to resolve issues of concern. If the Town adopts the plan amendment without adequately addressing the objections, the Department may find the amendment not in compliance with Chapter 163, Part II, Florida Statutes (F.S.), pursuant to section 163.3184(4)(e)4., F.S.

Department staff has discussed the basis of the report with local government staff and is available to assist the Town to address the objections.

I. Objection:

Objection 1: The proposed amendment fails to establish Policies which fulfill the Peril of Flood requirements established in both Policies Section 163.3178(2)(f)4., and 163.3178(2)(f)6., Florida Statutes. Section 163.3178(2)(f)4. requires that the Peril of Flood component be consistent with, or more stringent than, the flood-resistant construction requirements in the Florida Building Code and applicable flood plain management regulations set forth in 44 C.F.R. part 60. Section 163.3178(2)(f)6. requires that the component encourages local governments to participate in the National Flood Insurance Program (NFIP) Community Rating System (CRS). The proposed Peril of Flood component within the Conservation and Coastal Management Element does not satisfy these requirements.

Statutory Authority: Section 163.3178(2)(f)4, 163.3178(2)(f)5, 163.3184, Florida Statutes

Recommendation: The Town of Marineland should revise the proposed Peril of Flood component to include policies which satisfy the requirements established in Sections 163.3178(2)(f)4, and 163.3178(2)(f)6, Florida Statutes.

Objection 2: The Town removed the outdated Five-Year Schedule of Capital Improvements but failed to include a new schedule in the proposed amendment. The Five-Year Schedule of Capital Improvements must include any publicly funded projects of federal, state, or local government. Additionally, projects necessary to ensure that any adopted level-of-service be achieved and maintained for the 5-year period must be identified as either funded or unfunded and given a level of priority for funding as established by Section 163.3177(3)(a)4. and 163.3177(2), Florida Statutes.

Statutory Authority: 163.3177(3)(a)4, 163.3177(2), 163.3184, Florida Statutes

Recommendation: The Department Recommends that the Town revise the proposed amendment to include a Five-Year Schedule of Capital Improvements.

ORDINANCE NO. 2022-01

AN ORDINANCE OF THE TOWN COMMISSION OF THE TOWN OF MARINELAND, FLORIDA, AMENDING THE COMPREHENSIVE PLAN OF MARINELAND FLORIDA, WHICH WILL CONTROL FUTURE LAND USE, GUIDE PUBLIC FACILITIES, AND PROTECT NATURAL RESOURCES PURSUANT TO THE LOCAL GOVERNMENT COMPREHENSIVE PLANNING AND LAND DEVELOPMENT REGULATION ACT (CHAPTER 163, PART II, FLORIDA STATUTES), INCLUDING THE GOALS, OBJECTIVES AND POLICIES OF FUTURE LAND USE; TRANSPORTATION; HOUSING; INFRASTRUCTURE, CONSERVATION MANAGEMENT, RECREATION AND OPEN SPACE; INTERGOVERNMENTAL COORDINATION; CAPITAL IMPROVEMENTS; AND PROVIDING FOR REPEALER, SEVERABILITY, AND SETTING AN EFFECTIVE DATE.

WHEREAS, Chapter 166, Florida Statutes, empowers the Marineland Town Commission to prepare and enforce a Comprehensive Plan for the development of the Town; and

WHEREAS, Sections 163.3161 through 163.3215, Florida Statutes, the Local Government Comprehensive Planning and Land Development Regulation Act, empowers and requires the Town Commission of Marineland to (a) plan for the Town's future development and growth; (b) adopt and amend Comprehensive Plans, or elements or portions thereof, to guide the future growth and development of the Town, (c) implement adopted or amended Comprehensive Plans by the adoption of appropriate land development regulations; and (d) establish, support, and maintain administrative instruments and procedures to carry out the provisions and purpose of the Act; and

WHEREAS, pursuant to Section 163.3174(1), Florida Statutes, the Town Commission of Marineland, the duly designated as the Local Planning Agency for the Town of Marineland; and

WHEREAS, the Town Commission as specified in Section 163.3191, Florida Statutes, setting forth an assessment and evaluation of the Town of Marineland Comprehensive Plan; and

WHEREAS, the Town Commission empowered by the above-cited laws and ordinances, and by Sections 163.3161 through 163.3215, Florida Statutes, prepared an amendment to the above-cited Comprehensive Plan, amending the Comprehensive Plan to address more adequately, and prepare for Marineland's future development and growth; and

WHEREAS, pursuant to Section 163.3174, Florida Statutes, the Town Commission, as the Local Planning Agency, held a public hearing on the amended version of the Marineland Comprehensive Plan with due public notice having been provided, and having reviewed and considered all comments received during the public hearings and having provided for necessary revisions, and on May 19, 2022 recommended the amended version of the Marineland Comprehensive Plan to the Town Commission for approval; and

WHEREAS, pursuant to Section 163.3184, Florida Statutes, the Town Commission of Marineland on May 19, 2022 directed the transmittal of the amended version of the Comprehensive Plan to the Department of Economic Opportunity for review; and

WHEREAS, the Department of Economic Opportunity, by letter dated July 14, 2022, transmitted its objections, recommendations, and comments on the amended version of the Comprehensive Plan to the Town; and

WHEREAS, the amended version of the Comprehensive Plan was revised in view of the objections, recommendations and comments by the Department of Economic Opportunity; and

WHEREAS, pursuant to Section 163.3184, Florida Statutes, on August 18, 2022, the Town Commission of Marineland held a public hearing with due public notice having been provided, on the amended version of the Comprehensive Plan; and

WHEREAS, the Town Commission of Marineland further considered all oral and written comments received during public hearings and the objections, recommendations, and comments of the Department of Economic Opportunity; and

WHEREAS, in exercise of its authority, the Town Commission of Marineland has determined it necessary and desirable to adopt the amended version of the Comprehensive Plan to preserve and enhance present advantages; encourage the most appropriate use of land, water and resources consistent with the public interest; overcome present handicaps; and deal effectively with future problems that may result from the use and development of land within Marineland.

NOW, THEREFORE, BE IT ENACTED BY THE TOWN COMMISSION OF THE TOWN OF MARINELAND, FLORIDA AS FOLLOWS:

Section 1. Purpose and Intent. This Ordinance is enacted to carry out the purpose and intent of, and exercise the authority set out in the Local Government Comprehensive Planning and Land Development Regulation Act, Sections 163.3161 through 163.3215, Florida Statutes, and Chapter 166, Florida Statutes, as amended.

Section 2. Title of Comprehensive Plan. The revised version of the Comprehensive Plan for the Town of Marineland, Florida, shall be entitled " Marineland Comprehensive Plan 2040".

Section 3. Adoption of Goals, Objectives, and Policies, Comprehensive Plan 2040. The Town Commission of Marineland hereby adopts the goals, objectives and policies of the following elements as the Marineland Comprehensive Plan 2040: Future Land Use; Transportation; Housing; Infrastructure; Conservation; Recreation and Open Space; Intergovernmental Coordination; Capital Improvements, Sustainable Tourism; and Property Rights as a part of the Comprehensive Plan 2040.

Section 5. Applicability and Effect. The applicability and effect of the Marineland Comprehensive Plan 2040 shall be as provided by the Local Government Comprehensive Planning and Land Development Regulation Act, Sections 163.3161 through 163.3215, Florida Statutes, and this Ordinance.

Section 6. Copy on file.

(a) A certified copy of the enacting Ordinance, as well as certified copies of the Town of Marineland Comprehensive Plan 2040 and any amendments thereof, shall be filed with the Town Clerk of Marineland and hereby incorporated herein by reference and attached hereto as Exhibit “A”.

(b) To make the Comprehensive Plan 2040 available to the public, a certified copy of the enacting Ordinance, as well as certified copies of the Town of Marineland Comprehensive Plan 2040 and any amendments thereto, shall be maintained on the Town’s website and shall be available to the public for a reasonable publication charge.

Section 7. Repealer. Any ordinances or parts thereof in conflict with the provisions of this Ordinance are hereby repealed to the extent of such conflict.

Section 8. Severability. The various parts, sections and clauses of this Ordinance are hereby declared to be severable. If any part, sentence, paragraph, section or clause is adjudged unconstitutional or invalid by a court of competent jurisdiction, the remainder of the Ordinance shall not be affected thereby.

Section 9. Effective Date. This Ordinance shall take effect immediately upon passage.

Adopted this _____ day of _____, 2022, by the Marineland Town Commission, Marineland, Florida.

Angela TenBroeck
Mayor

ATTACHMENT "A"
2040 COMPREHENSIVE PLAN

TOWN OF MARINELAND

COMPREHENSIVE PLAN

~~2025~~2040

August 2, 2022

Goals, Objectives, and Policies

A. FUTURE LAND USE ELEMENT GOALS, OBJECTIVES, AND POLICIES

GOAL A.1 SUSTAINABLE COMMUNITY

It is the goal of the Town of Marineland to develop a complete human habitat, along the line of a traditional American town concept, where residents from different social and economic strata can form a community, fulfill most of their daily needs by walking, and live together in a sustainable and ecologically sound manner.

OBJECTIVE A.1.1

Future development and growth will emphasize alternatives to automobile usage as the primary mode of transportation within the Town.

Intent:

1. Minimize traffic congestion.
2. Grant residents increased personal time.
3. Reduce air pollution.
4. Conserve energy.
5. Reduce the need for roadway construction and maintenance.
6. Encourage pedestrian, bicycle, and electric vehicle use.

Policies

- A.1.1.1 The Town shall allow for a mix of transient and permanent residential and non-residential development so that shops and workplaces shall be located in close proximity to one another and promote ecotourism and educational opportunities. No R.V. parks shall be allowed in Marineland.
- A.1.1.2 Streets shall be designed and detailed to encourage pedestrian, bicycle, and electric cart activity and to discourage unnecessary automobile use through the use of traffic calming devices, and posted speed limits.
- A.1.1.3 Street design shall give priority to pedestrian and bicycle use.
- A.1.1.4 Land uses within Marineland will be integrated so as to facilitate pedestrian and bicycle activity, as well as the use of electric carts.
- A.1.1.5 Intersections within the community shall be purposefully designed to discourage high speed turns.
- A.1.1.6 Vehicle speeds shall be controlled by restrictive street geometry design as well as other traffic calming devices such as signage, roundabouts, and speed bump obstacles, ~~or enforcement of traffic laws.~~

- A.1.1.7 The housing mix shall accommodate mixed use commercial and residential developments, multi-family housing, and town houses, to create a pedestrian friendly environment.
- A.1.1.8 Parking areas shall be well-landscaped and screened with vegetation to reduce heat island effect and visual blight, ~~and smaller, scattered lots shall be preferred over large lots.~~

OBJECTIVE A.1.2-COMMUNITY DESIGN

To provide a safe and secure community that will result in a built environment consistent with the vision of a sustainable community.

Policies

- A.1.2.1 Pedestrian activity shall be encouraged by through design, ~~so that citizens are comfortable in the public realm and are encouraged to mix socially while walking through the community.~~
- A.1.2.2 Buildings shall front the street with a preponderance of windows and doors facing the street.
- A.1.2.3 Requiring Florida vernacular architectural styles, avoiding slab on grade construction where possible. Exceptions may be allowed for public buildings on a case by case basis as detailed in the Land Development Regulations.
- A.1.2.4 Shielded, downcast, and low intensity street, walkway, and other exterior lighting shall be provided in a manner that reduces glare, protects the view of the night sky, and does not adversely impact turtle nesting or hatchlings.
- A.1.2.5 All structures within the Town are limited to a maximum of three (3) stories above a single parking level. No structure shall exceed 55 feet mean building height. ~~Mean building height is the vertical distance from the established street grade at the center of the front of the building to the mean level between eaves and ridges for gable, hip and gambrel roofs.~~

OBJECTIVE A.1.3- PUBLIC PLACES

To provide a vibrant public realm for all citizens.

Policies

- A.1.3.1 Prominent sites for civic buildings and public gathering places shall provide places of assembly and for social, cultural and religious activities in the Sustainable Mixed Use, Institutional Research, General Commercial, and Tourist Commercial land use categories.

A.1.3.2 The Land Development Regulations will include provisions for community outdoor gathering spaces as allowable uses within zoning districts, site design and open space standards.

OBJECTIVE A.1.4-LAND DEVELOPMENT REGULATIONS

Future growth and development will be managed in part through the preparation, adoption, implementation and enforcement of land development regulations.

Policies

A.1.4.1 Adopt and implement land development regulations consistent with the provisions of Section 163.3202(1) F.S. within one year from the plan adoption date that shall contain specific and detailed provisions required to implement the adopted Comprehensive Plan, and which as a minimum shall address the following:

- a. Regulate the subdivision of land;
- b. Regulate the use of land and water consistent with this Plan and ensure the compatibility of adjacent land uses and provide for open space;
- c. Protect the Conservation Lands designated on the Future Land Use Map and in the Conservation Element;
- d. Regulate areas subject to seasonal and periodic flooding and provide for drainage and stormwater management;
- e. Protect potable water wellfields and aquifer recharge areas;
- f. Regulate signage;
- g. Ensure safe and convenient on-site traffic flow and vehicle parking needs;
- h. Provide that development orders and permits shall not be issued which result in a reduction of the level of services for the affected public facilities below the level of service standards adopted in the Comprehensive Plan;
- i. Protect the Maritime Hammock Vegetative Community within the Town; and,
- j. Tree Protection Ordinance that address protection of hardwood trees with a diameter at breast height of six inches or greater.
- k. Landscape requirements, which require drought resistant and salt tolerant native vegetative species. Public gathering areas and grassed parking areas will receive special consideration for landscaping requirements.

A.1.4.2. This Comprehensive Plan sets forth the following Future Land Use designations and ~~design standards~~ that will be implemented in part though ~~adopted~~ through the Land Development Regulations. ~~These design standards include floor to area ratios (FAR) and maximum lot coverage. FAR is defined as the total square footage of the building or structure divided by the total square footage land area within the parcel proposed for development. Maximum lot coverage is defined as the percentage of the maximum square footage of the total of all impervious surface on a lot or parcel.~~

Sustainable Mixed Use

This land use category is intended to provide for the majority of the permanent and transient residential opportunities within the Town as well as provide commercial and civic uses in close proximity to all residential uses. In this land use upper-floor residential units over non-residential (commercial/retail) ground floor space shall be encouraged. A maximum of 241 residential units, ~~and a maximum of 50,000 square feet of commercial uses will be allowed within the Sustainable Mixed Use Category.~~

Residential uses will allow for a mix of permanent and transient residential units and types including single and multi-family units. ~~Also upper-floor residential units over non-residential (commercial/retail) ground floor space shall be encouraged. A range of 3 to 9 residential units will be located above first floor commercial uses within the sustainable mixed-use land use category~~

Single use residential structures will meet the following design standards.

Type Use	Lot Size	Maximum Lot Coverage
Single-family units	> 10,000 SF	50%
Single-family units	< 10,000 SF	70%
Multi-family units		70%

Commercial uses allowed are intended to serve the general retail/commercial needs of the residents and tourist of the Town. The Commercial uses allowed are those that are allowed in the General Commercial Land Use Category. Single use commercial structures (buildings) shall have maximum lot coverage of 85 percent.

Mixed use structures (buildings) where residential and commercial uses are collocated in a single structure shall have maximum lot coverage of 85 percent. Parking area is not considered a commercial use for purposes of defining a mixed-use structure (building).

Institutional Research

Uses within this category pertain primarily to education and research activities associated with the Whitney Lab and other sustainable campus community. These uses will include classrooms, research and lecture facilities and dormitory rooms for students and researchers associated with the Whitney Lab and other sustainable campus community and for visiting researchers. Dormitory units will be designed to house a maximum of 72 occupants. Development within the Institutional Research land use category shall have a maximum FAR of 2.0 and maximum lot coverage of 85 percent.

General Commercial

Uses within this category are intended to serve the general commercial needs of the Town, wherein, a variety of retail, commercial, financial, professional office services and other general commercial uses would be allowed. Additional permitted uses include public buildings and grounds. The marina facility and associated uses are included in this category. Development within this category shall have a maximum FAR of 0.6 and maximum lot coverage of 95 percent. ~~A maximum of 85 marina slips is allowed within the Town.~~

Tourist Commercial

This land use category is intended to allow for activities that are predominately associated with the delivery of goods and services to tourists. Uses are designed for the existing marine park and associated research activities, including parking, hotel use, resort residential units, dining establishments, beach club and associated facilities, public buildings and grounds and retail establishments which primarily serve tourists. The total number of resort residential units shall not exceed 35 units. Within this land use category 2 hotel units can be substituted for 1 resort residential unit. Clustering of unit density is allowed. Development within the Tourist Commercial category shall have a maximum FAR of 2.0 and maximum lot coverage of 85 percent.

Conservation

Lands depicted on the Future Land Use Map as Conservation include areas designated for the purpose of protecting natural resources. Conservation lands include the River to Sea Preserve, as well as wetlands associated with the Intracoastal Waterway. Uses within the River to Sea Preserve will be consistent with those uses set forth in the adopted River to Sea Preserve Management Plan. Development may occur within upland portions of this area at a density of 1 dwelling unit/84 acres. Flagler County and the Town of Marineland is the management entity for the Preserve and is responsible for implementation of the management plan.

Conservation Public Land

~~Conservation Public Land is a subcategory within the Conservation Land Use category. Within the Conservation Public Land category uses are limited to two (2) residential units to be utilized by visiting researchers associated with the GTMNERR as well as the uses by the GTMNERR for research and education purposes consistent with the River to Sea Preserve Management Plan. In addition, up to 20 lodging units are allowed within the River to Sea Preserve under a low impact development strategy, minimizing tree removal, blended into the natural landscape, and exhibiting the “Old Florida” vernacular style that utilizes porches, gabled roofs, and wood-like exteriors.~~

Public Facilities

This category is intended to provide for the provision of a wastewater treatment facility located on an out parcel within the River to Sea Preserve. Other private or public utilities are also allowed in this land use category. The intensity of development permitted for this land use category is measured by impervious surface, which may cover up to 90 percent of the land area. The maximum height of structures in this land use category shall not exceed 35 feet.

- A.1.4.3 Land development regulations shall ~~contain~~ maintain performance standards that ~~(among other things):~~
- a. Address buffering and open space requirements;
 - b. Address historically significant properties ~~meriting protection~~;
 - c. Address protection of native vegetation and wildlife in environmentally significant areas as specified in the Coastal/Conservation Element;
 - d. Address the orientation of structures to maximize the cooling effects of ocean breezes and minimize solar heating of structures during the summer months
 - e. Limit lot coverage by buildings and parking
 - f. Protect significant archeological resources.
 - g. Limit the maximum height of structures to three (3) stories above a single parking level.
- A.1.4.4 Land development regulations shall promote and encourage “green technology” in the development of structures and uses located within the Town.

- A.1.4.5 Land development regulations (LDRs) shall ~~establish~~ maintain a 50-foot buffer landward of all natural wetlands within the Town. The wetland buffer shall be based on the following standards:
- Within the first 25 feet landward of jurisdiction wetland boundary only elevated boardwalks, which cross the wetlands to provide access to waterways, will be allowed. Any other activities including vegetation removal shall be prohibited within the first 25 feet.
 - Within the second 25 feet minimal encroachment shall be allowed such as elevated boardwalks and passive recreational uses which do not adversely impact native vegetation will be allowed.

OBJECTIVE A.1.5 CONCURRENCY

All development orders and permits for future development and redevelopment activities shall be issued only if public facilities necessary to meet level of service standards (~~which are adopted as part of the Capital Improvements Element~~) are available concurrent with the impacts of the development ~~as provided in Section 163.3180, F.S.~~

Policies

- A.1.5.1 The development of residential and commercial land shall be timed and staged in conjunction with the provision of supporting public facilities, such as roads, utilities, solid waste removal and parks and recreation.

Development orders and permits will be specifically conditioned on the availability of the facilities and services necessary to serve the proposed development ~~consistent with Section 163.3180, Florida Statutes. The Town will continue to review all development proposals for consistency with the adopted concurrency management system consistent with Chapter 163, Florida Statutes.~~

- A.1.5.2. Development orders and permits will be specifically conditioned on the provision of drainage and stormwater management, open space, and safe and convenient on-site traffic flow and parking, ~~as identified in the appropriate elements of this comprehensive plan.~~

- A.1.5.3 Public facilities and utilities shall be located to:
- a. maximize the efficiency of services provided,
 - b. minimize their cost,
 - c. minimize their impacts on the natural environment, and
 - d. optimize their impact on community life.

~~A.1.5.4 The Town shall ensure the availability of suitable land necessary for utility facilities to support proposed development.~~

~~A.1.5.5A.1.5.4 Future development will be directed in accordance with the Future Land Use Map where the efficient provision of services and public facilities is provided concurrent with the impact of development as provided in Section 163.3180, Florida Statutes, and Chapter 163, Florida Statutes.~~

~~A.1.5.6A.1.5.5 By 2020 the Town shall conduct a feasibility study to determine whether the wastewater treatment facility shall be expanded or other endeavors, such as the extension of sewer from adjacent jurisdictions, shall be pursued.~~

~~A.1.5.7 Within Marineland, new development shall be permitted only when central water and sewer systems are available or will be provided concurrent with the impacts of development as provided in Chapter 163, Florida Statutes~~

OBJECTIVE A.1.6 URBAN SPRAWL

~~In order to discourage urban sprawl, future development and redevelopment activities shall be directed as depicted on the Future Land Use Map, consistent with sound planning principles, minimal natural limitations, the goals, objectives and policies contained within this plan, and the desired community character.~~

Polices

A.1.6.1 Innovative land use development patterns, ~~as shown on the Future Land Use Map shall be required~~ shall be promoted in development and redevelopment activities.

A.1.6.2 Residential neighborhoods shall be designed to include an efficient system of internal pedestrian as well as vehicle circulation, including a hierarchy of interconnected streets to disperse traffic and to discourage unnecessary use of automobiles.

A.1.6.3 Prevent scattered and highway strip commercial development ~~by requiring the development of commercial uses as designated on the Future Land Use Map.~~

A.1.6.4 Tourist-related commercial activities shall be concentrated in areas adjoining A1A.

- A.1.6.5 All commercial developments shall include adequate parking and loading facilities, either through on street spaces or in lots and shall be accessible by walking or public transportation.

OBJECTIVE A.1.7 PROTECTION OF NATURAL AND HISTORIC RESOURCES

Development activities shall ensure the protection of natural systems and historic resources.

Policies

- A.1.7.1 Those upland habitat areas within Conservation areas on the Future Land Use Map, as part of the River to Sea Preserve, shall be preserved intact and in perpetuity as natural areas. Allowed disturbances to these preserve areas shall be strictly limited to those necessary to provide pedestrian walkways and small picnic areas, where such can be provided without damage to habitat value and to manage habitat functions as dictated in the River to Sea Preserve Management Plan. Development must be consistent with the River to Sea Preserve Management Plan.
- A.1.7.2 The developer/owner of any site shall be responsible for the on-site management of surface water runoff in a manner so that post-development runoff rates, ~~and pollutant loads~~ do not exceed pre-development runoff rates and water quality treatment requirements align with conditions according to SJRWMD water quality requirements for Outstanding Florida Waters and such other additional requirements as may be prescribed by the Town to protect the water quality of the Matanzas River, the surrounding estuary, and near shore marine waters. ~~A master stormwater system will be developed within the Sustainable Mixed Use area identified on Map A-6.~~
- A.1.7.3 Marineland's land development regulations shall ~~address and maintain~~ limitation on activities which have the potential to contaminate soil or water.
- A.1.7.4 Extraction of natural resources shall be permitted only where compatible with existing and proposed land uses.
- A.1.7.5 Marineland shall continue, with the assistance of archaeologists, to identify significant historic resources, which are in need of protection, and shall require their protection as required by State law.
- A.1.7.6 ~~Environmentally sensitive lands not otherwise addressed above shall be examined on a case-by-case basis and appropriate management controls shall be developed to ensure their protection. No development orders or permits shall be issued for a site identified as~~

environmentally sensitive until protective measures or adequate mitigation measures have been established.

- A.1.7.7 The Town will assist the Flagler County in seeking funding to implement restoration of the disturbed areas of the River to Sea Preserve and implement the Preserve Management Plan. ~~This assistance may include, but is not limited to, funding through the CRA.~~
- A.1.7.8 The Town shall assure the long-term protection of Jordan, “Middle,” and Mellon Islands as conservation lands, with limited passive recreation useage, and the Town shall partner with state agencies and Flagler and St. Johns County in managing these islands.
- A.1.7.9 The Town will seek to annex the southernmost portion of the River To Sea Preserve, which presently is located in Flagler County.
- A.1.7.10 The Land Development Regulations shall contain provisions to protect ~~An any archeological/historic resources survey shall be completed and submitted to the Town as part of the site plan approval process.~~
- A.1.7.11 Any regional or state significant historical and archaeological resources discovered in the course of development shall be immediately reported to the Town and to the Division of Historical Resources. No disruption of the findings shall be permitted until the investigation is complete and the Division of Historical Resources has rendered a recommendation, which will be binding on the owner/developer and the Town.
- A.1.7.12 Should the Town develop a facility to serve as a Historical Museum, the Town will negotiate with the State to retain any removed archeological material for the purposes of enhancing educational opportunities associated with history of the area.

OBJECTIVE A.1.8- PROTECTION OF CRITICAL COMMUNITIES

Protect the Maritime Hammock Vegetative Community within the Town boundaries.

Policies

- A.1.8.1 ~~There is created an~~The Land Development Regulation shall maintain a ~~Overlay~~ Maritime Hammock Community (MHC) overlay designation encompassing the maritime hammock vegetative community within the Sustainable Mixed Use land use category ~~to be shown on the Future land Use Map, and within which development shall be limited as follows:~~
 - a- Development shall be subject to environmental performance standards adopted in the land development regulations, which will minimize adverse environmental impacts;

- ~~b.~~ Recreational development must be compatible with the surrounding environment and shall be subject to performance standards adapted in the land development regulations;
- ~~c.~~ The clearing of canopy trees shall be prohibited, unless specifically permitted. “Canopy or canopy trees” shall mean those trees that constitute or make up the highest layer of leaf cover in a forest or hammock. The canopy trees addressed in this policy are those that are indigenous to the Maritime Hammock Vegetative Community.
- ~~d.~~ All applications for development approval shall be subject to site plan review.
- ~~e.~~ Development shall be consistent with the tree protection ordinance adopted as part of the Town’s Land Development Regulations.
- ~~f.~~ Minimum size of any single-family lot proposed for development is 10,000 square feet.
- ~~g.~~ No commercial development will be allowed within the Overlay area.

A.1.8.2 ~~Within one year from adoption date, t~~The Town’s zoning ordinance as part of the Town’s Land Development Regulations will guide development activities within the Overly-Maritime Hammock Community identified on the Future Land Use Map. The primary purpose of this ordinance is the long-term protection of the Maritime Hammock Community within the Town. This overlay zoning ordinance will continue to:

1. Minimize disturbance through directing development activities to the least environmentally sensitive portion of lots or parcels proposed for development.
2. Develop landscape standards, which require the incorporation of existing native vegetation into the design, prohibit the cultivation of grass lawns in the Maritime Hammock Community, and limit the utilization of fertilizers, pesticides and herbicides.
3. Regulate development with strict site design standards that protect the Maritime Hammock Community where the minimum size of any single-family lot or parcel of multi-family development is 10,000 square feet.
4. Within the land development regulations identify and limit activities, which can occur within the drip line of preserved canopy trees.

A.1.8.3 A minimum of 50 percent of each single-family lot or parcel of multi-family development within the Maritime Hammock Community will be preserved with intact under story and groundcover.

A.1.8.4 A minimum of 75 percent of the tree canopy on each single-family lot or parcel of multi-family development within the Maritime Hammock Community will be preserved. Land development regulations will be adopted by the Town, which establishes standards for activities, such as tree trimming, which may affect the tree canopy within the Maritime Hammock Community

- A.1.8.5 ~~The Town shall maintain a~~ Regulate the removal of canopy trees within the Maritime Hammock Community within the Town and adopt appropriate mitigation for tree removal through the Town's Tree Protection Ordinance to regulate tree removal and require mitigation.

OBJECTIVE A.1.9 PROTECTION OF PLANT AND ANIMAL SPECIES

Prevent significant adverse impacts to endangered and threatened plant and animal species that are dependent on habitats, which occur within the community.

Policies

- A.1.9.1 Endangered or Threatened Plant and Animal Species shall include all species listed as such by the United States Fish and Wildlife Service (USFWS), the State of Florida, the Florida Committee on Rare and Endangered Plants and Animals (FCREPA) or Florida Natural Areas Inventory (FNAI).
- A.1.9.2 The Town shall require environmental experts, as needed, to assess the impact of all proposed development, including any State and Federal projects, on endangered and threatened plant and animal species that may be dependent on habitats which occur within the Town's jurisdiction. Such impact analysis shall be provided by the applicant and must be presented to the Town Commission prior to the Commission making any decision granting final development approval for proposed development.
- A.1.9.3 No activities which would significantly affect any endangered or threatened plant or animal species shall be allowed to occur.
- A.1.9.4 Shielded, downcase, and low intensity street, walkway, and other exterior lighting shall be used to reduce glare, protect the view of the night sky, and not adversely impact turtle nesting or hatchlings.
- A.1.9.5 Allow no loss of moderate and high quality submerged seagrasses and ensure no net loss of low quality or disturbed submerged seagrasses.
- A.1.9.6. To reduce the potential interactions of boats and manatees the Town will seek a designated no wake zone in that portion of the Intra-coastal waterway adjacent to the marina.

OBJECTIVE A.1.10 INCONSISTENT LAND USES

Existing land uses which are inconsistent with the Future Land Use Map shall be eliminated by the year 2010 encouraged to be eliminated.

Policies

- A.1.10.1 Expansion or replacement of land uses which are inconsistent with the Future Land Use Map shall be prohibited.

OBJECTIVE A.1.11 INTERGOVERNMENTAL COORDINATION

The Town shall improve coordination with affected and appropriate governments and agencies to maximize their input into the development process and mitigate potential adverse impacts of future development and redevelopment activities.

Policies

- A.1.11.1 ~~Requests for development orders or permits shall be coordinated, as appropriate, with adjacent counties, special districts, the Regional Planning Council, the Water Management District and state and federal agencies.~~

- A.1.11.2 Dredge and spoil site(s) may be permitted in Marineland, provided they meet site selection criteria, which address natural resources, are consistent with environmental protection criteria, and sufficient buffering exists to protect the safety and integrity of surrounding development areas, significant archaeological and historic resources, significant environmental resources and any approved management plans. The Town will cooperate with Flagler County and St. Johns County on possible joint dredge and spoil sites.

OBJECTIVE A.1.12 EMERGENCY EVACUATION

Coordinate coastal area population densities with the local or regional hurricane evacuation plan.

Policies

- A.1.12.1 Develop public awareness and education programs regarding hurricane hazards, safety procedures and established evacuation routes. ~~This education program will include notification of households, the attraction, operators of hotels, resort residential units and research facilities in Marineland of their need to evacuate in the event of a hurricane.~~

- A.1.12.2 ~~Review and update the Marineland hurricane evacuation plan and~~ Coordinate with the Flagler and St. Johns Counties' Emergency Management for hurricane evacuation plans on a five-year basis.

~~A.1.12.3 Detailed instructions and maps showing primary and backup evacuation routes, public shelters and designated safe areas, shall be printed and made available to residents and visitors to Marineland through hotels, businesses and other appropriate distribution points within the Town. At the time of issuance of a certificate of occupancy for a dwelling unit, signed acknowledgment from the individual who will occupy the dwelling unit or his/her agent that the owner has been provided this information will need to be provided.~~

~~A.1.12.4~~A.1.12.3 The Town of Marineland will coordinate its evacuation plan with Flagler and St. Johns Counties for coordination and integration into the regional and local plans and will attend coordination meetings on the regional/local plans.

OBJECTIVE A.1.13 PROTECTION OF LIFE AND PROPERTY

The Town of Marineland shall ensure that building and development activities are carried out in a manner which minimizes the danger to life and property.

Policies

A.1.13.1 A comprehensive marina hurricane contingency plan shall be maintained by the marina operator and submitted annually to the Town and County ~~that describes what owners are expected to do with their boats in the marina in the event of a hurricane.~~

A.1.13.2 New sanitary sewer facilities in Marineland shall be flood-proofed such that raw sewage shall not leak from sanitary sewer facilities during flood events and septic tanks shall be prohibited.

A.1.13.3 Structures in Marineland shall be designed to withstand the wind loads specified in the most recent edition of the Florida Building Code ~~as amended from time to time, but in no event shall building design standards be less than 130 mph wind loads.~~

A.1.13.4 To mitigate flooding hazards the lowest habitable floor of any permanent structure in Marineland shall be required to be ~~at or~~ 2 ft. above the base flood elevation specified in the most current FEMA Flood Insurance Study of Marineland.

A.1.13.5 Beaches and dunes in Marineland shall be protected from alteration or development activities that would reduce their effectiveness in buffering storm events.

OBJECTIVE A.1.14 COASTAL CONSTRUCTION

Ensure that all new construction is planned and built to minimize the danger to life and property losses due to coastal and inland flooding by requiring that all new construction and substantial rehabilitation found to be in a Flood Hazard Zone or seaward of a Coastal Construction Control Line shall be planned and built in accordance with FEMA or FDEP requirements as applicable.

Policies

- A.1.14.1 Buildings shall be located on upland portions of properties impacted by flood hazards and obtain FDEP approval for construction seaward of the Coastal Construction Control Line.
- A.1.14.2 The Town of Marineland shall require a professional review of construction plans. The plans must contain a certification from an engineer licensed by the State of Florida that they new development or redevelopment meet FEMA requirements for the Flood Hazard Zone or FDEP requirements for the Coastal Construction Zone before construction permits are issued.

OBJECTIVE A.1.15 BEACH ACCESS

Retain existing beach parking facilities and public beach access including boardwalk and associated beach access stairs, and protect the barrier dunes by converting the ~~two dune walkovers on the north and south side of the Town to boardwalks by 2020.~~

Policies

- A.1.15.1 Coordinate with local, state and federal agencies to fund construction of beach access and beach parking facilities.
- A.1.15.2 ~~Seek Assist in~~ funding of beach access and beach parking facilities through grants and funding through from the Community Redevelopment Area, where applicable.

OBJECTIVE A.1.16 AFFORDABLE HOUSING

~~Provide for adequate housing opportunities affordable to those employed within the Town of Marineland.~~

Policies

- ~~A.1.16.1 If a need for affordable housing is identified during the planning horizon of this Comprehensive Plan, the Town will investigate entering into an Interlocal Agreement with neighboring counties or municipalities consistent with Chapter 163, Florida Statutes.~~

GOAL A.2 SUSTAINABLE TOURISM/EDUCATION

Become a sustainable “campus” community for nature and heritage tourism, scientific research public education, and residence.

OBJECTIVE A.2.1 SUSTAINABLE TOURISM

Become a nationally recognized center of eco-tourism Tourism activities will not adversely impact the natural and cultural resources found in the Town of Marineland.

Policies

~~A.2.1.1 The Town will implement the goals, objectives and polices adopted in the Sustainable Tourism Element of the Town of Marineland Comprehensive Plan.~~

~~A.2.1.2A.2.1.1 The Town, in conjunction with and cooperation with an institute of higher learning, will determine carrying capacity of the various cultural and natural tourism resources located within the Town. The carrying capacity of resources will be utilized to develop indicators and implement a program for the long term protection of these resources as part of the Towns LDRs. The LDRs to will protect the various cultural and natural tourism resources will be adopted or amended within 1-year of development of the indicators.~~

~~A.2.1.3A.2.1.2~~ The Town will collaborate with Flagler County to implement the management plan for the River to Sea Preserve at Marineland.

OBJECTIVE A.2.2-EDUCATION AND SCIENTIFIC RESEARCH

Enhance the Town’s Educational and Scientific Research Institutions and seek to attract the visitation of scientists, students and science-interested tourists and promote scientific and educational programs and opportunities within the Town.

Policies

A.2.2.1 The Town shall support outreach programs that are sponsored by the Whitney Laboratory sustainable campus community.

A.2.2.2 The Town shall support the Guana Tolomato Matanzas National Estuarine Research Reserve programs that promote scientific research and assist to with the implementation of education programs and obtain funding for estuarine research programs.

A.2.2.3 The Town shall support the Florida Sea Grant Extension and other similar programs that have, with the goal of bringing more guests to the Town as a result of such programs.

A.2.2.4 The Town shall support and encourage education and scientific research activities.

A.2.2.5 The Town shall support the ~~educational and tourism efforts of the~~

~~Marineland Oceanarium.~~

A.2.2.6

The Town shall support efforts by the ~~Whitney Lab~~ sustainable campus community to develop lodging within the Town for visiting researchers and students, ~~as described in the Sustainable Tourism Element.~~

B. TRAFFIC CIRCULATION ELEMENT GOALS, OBJECTIVES, AND POLICIES

GOAL B.1

Coordinate land use and transportation planning in order to maintain a well-balanced and integrated transportation system that minimizes automobile use, encourages public transit, and provides for the safe, convenient, and efficient movement of people and goods throughout Marineland.

OBJECTIVE B.1.1 – LIMITING NUMBER OF TRIPS

To ~~promote the reduction e by 40% of~~ the number and length of vehicle trips ~~relative to the state average per household by 2025~~ in order to minimize traffic congestion, reduce air pollution, conserve energy, reduce roadway construction and maintenance needs, and encourage pedestrian and bicycle activity.

Policies

- B.1.1.1 Land development regulations shall allow for an adequate mix of residential and non-residential development so that dwellings, shops and workplaces shall be located in close proximity to one another.
- B.1.1.2 The building types shall ~~be to accommodate a portion of the lowest-paid employees within the town, by allowing~~ promote mixed use developments, multi family housing, and town houses.
- B.1.1.3 The Town will allow for residential development within commercial land use by allowing for work places, when limited in size and free of noxious emissions, to be allowed within dwellings.
- B.1.1.4 Land uses within Marineland will be designed so as to facilitate pedestrian and bicycle activity, as well as the use of electric carts.
- B.1.1.5 Streets shall be designed and detailed to encourage pedestrian, bicycle, and electric cart activity and to discourage automobile use through the use of traffic calming devices, posted speed limits and enforcement.
- B.1.1.6 Street design shall give priority to pedestrian and bicycle use.
- B.1.1.7 Vehicle speeds shall be controlled by restrictive street geometry as well as other traffic calming devices such as signage, roundabouts, obstacles, or enforcement.
- B.1.1.8 Intersections within the community shall be purposefully designed to discourage high speed turns.

B.1.1.9 For the safety of pedestrians and bicyclists, ~~at such time when parking commences on the west side of S.R. A1A and more pedestrian crossing of this roadway occurs~~ the Town will work with FDOT to provide a crosswalk with a flashing light or a similar measure to slow traffic and provide for pedestrian safety endeavor. The Town shall also work with FDOT to install two additional crosswalks are needed, ~~one at the northern end of the Town at the kayak launch, where beachgoers cross SR A1A; and at the southern end of the Town at the River to Sea parking lot crossover, also utilized by beachgoers.~~

B.1.1.10 Future development will utilize connectivity of streets, sidewalks and pathways, and bicycle facilities to provide for efficient movement throughout the Town.

OBJECTIVE B.1.2 – DESIGN FOR MULTI-MODAL

~~To design a community in such a way that 100% of the community can form an effective part of a future bus, and/or water transportation system by the year 2015.~~

Policies

~~B.1.21 If necessary, work with a fixed route transit provider in any efforts to designate at least one location where shelters may be established for stations in a bus system running on SR A1A. Each station shall be within 6 minutes walking distance of 50 percent of all dwellings.~~

~~B.1.22 Cooperate with any public or private entity working to establish docking facilities for a water borne system along the Matanzas River connecting Marineland with St. Augustine and/or Palm Coast and Flagler Beach both for tourists and for commuters.~~

OBJECTIVE B.1.3 – LEVEL OF SERVICE STANDARDS

The Town shall require that growth occur in a planned and orderly manner which is compatible with the framework established in the Future Land Use Element.

Policies

B.1.3.1. The Town hereby adopts LOS D as the standard for S.R. A1A for ~~daily and peak hour~~ traffic.

~~B.1.3.1a The Town hereby designates S.R. A1A as a constrained facility, consistent with the definitions of a constrained facility adopted by FDOT in the LOS Handbook. The Level of service shall be maintained at LOS D.~~

B.1.3.2. The Town shall pursue federal, state, and local funding sources which could supplement the Marineland budget for road construction and maintenance.

- B.1.3.3 The Town shall work with the St. Johns County and Flagler County Commissions as necessary in developing priority plans for each of the Counties' to address roadway improvement needs within Marineland.
- B.1.3.4 The Town shall review all proposed transportation and improvements plans from FDOT, St. Johns County, and Flagler County to determine the impacts such projects or proposals will have on the Town's traffic circulation system.
- ~~B.1.3.5 The Town shall review all proposed development for impact to State Road A1A upon the adopted LOS standard and consistency with the Comprehensive Plan through its concurrency management system. However per Statute the~~
- ~~B.1.3.5 Town cannot stop development even when level of service limitations are surpassed – developers can pay for the proportionate impacts of their development and proceed.~~
- B.1.3.6 The Town of Marineland shall control the connections and access points of driveways and roads to S.R. A1A through the use of land development regulations and State driveway permit procedures.
- B.1.3.7 The Town shall require the construction of bikeways in conjunction with highway improvements on S.R. A1A.
- B.1.3.8 The Town shall allow all new roadways to be paved with crushed shell or some kind of pervious surface as deemed acceptable, rather than impervious material.

OBJECTIVE B.1.4 – COORDINATION OF TRANSPORTATION SYSTEM

Marineland shall coordinate its traffic circulation system with related county, state, regional, and federal agencies for an integrated, cost effective transportation system.

Policies

- B.1.4.1 The Town shall coordinate roadway improvements with Flagler County, St. Johns County, the North Florida Transportation Planning Organization, and the Florida Department of Transportation to ensure effective coordination of transportation planning and application of available revenue.
- ~~B.1.4.2 The Town shall review for compatibility with this element, the traffic circulation plans and programs of the unincorporated counties and neighboring municipalities as they are amended in the future.~~

OBJECTIVE B.1.5 – S.R. A1A SCENIC HIGHWAY

Marineland shall adopt land development regulations that implement the vision of the A1A Scenic Highway plan and provide special protections to the scenic highway corridor through the protection of rights-of-way from building encroachment, proper landscaping and signage restrictions, coordination with private and public agencies in education and awareness, and other means of special protection.

Policies

- B.1.5.1. The Town shall establish a build-to line along the streets. ~~The developer will be required to survey and mark this line before receiving a development order or permit.~~
- B.1.5.2. The Town shall provide input to FDOT for any improvements to S.R. A1A concerning any additional landscaping, including the planting of wildflowers and native trees, lighting improvements, and the strategic placement of scenic highway signs necessary to accomplish the overall goals of the S.R. A1A Scenic Highway Plans.
- B.1.5.3. The Town shall assist the scenic highway Corridor Management Entity in seeking funding to implement the Corridor Management Plan.
- B.1.5.4. The Town shall ~~establish~~ include criteria in the Land Development Regulations for the design and placement of signs along the S.R. A1A right-of-way.
- B.1.5.5. The Town shall encourage FDOT to consolidate existing signs within the S.R. A1A right-of-way to avoid sign clutter.
- B.1.5.6. The Town shall cooperate with Flagler County and St. Johns County in any efforts to establish a multi-purpose, continuous pedestrian/bicycle path through the S.R. A1A corridor.
- B.1.5.7. The Town shall actively encourage FDOT to establish scenic pull off areas in designated areas along S.R. A1A for use by the traveling public in order to promote S.R. A1A as a scenic highway.

C. HOUSING ELEMENT – GOALS, OBJECTIVES, AND POLICIES

GOAL C.1

Provide a diversity of safe and sanitary dwelling types sufficient to ensure that the town includes residents representing a cross-section of age and income distribution, and that those working within the Town may also live there.

OBJECTIVE C.1.1

Provide housing types and sites which ~~provide a mix of housing types~~ correspond to the income of people working within the Town as well as those purchasing luxury homes and second homes.

Policies

C.1.1.1 The Town of Marineland shall, through ~~zoning and~~ the adopted Land Development Regulations, allow a diversity of lot sizes, floor areas, setbacks, construction materials and other design features which allow for appropriate lands for a variety of housing types and price ranges.

C.1.1.2 The land development regulations shall permit limited in-home business uses and home occupations in an appropriate number of dwellings and building types which can accommodate such a mixture.

~~C.1.1.3 The Town shall work with adjacent local governments, along with the private and non-profit sectors, to improve the affordable housing process by the use of such tools as (but not limited to): inclusionary zoning (to provide for range housing types), incentive zoning (tax credits) and interlocal agreements.~~

OBJECTIVE C.1.2

The Town shall ensure that any new proposed dwelling unit be constructed material to meet the building type and life- safety requirements of the Florida Building Code, the Coastal Construction Control Line, and floodplain regulations.

Policies

C.1.2.1 Improve the regulatory and permitting process by retaining qualified staff or experts to review building plans for compliance.

OBJECTIVE C.1.3

~~Provide sites in residential areas or areas of residential character outside of the Coastal High Hazard Area for group homes and foster care facilities that are either licensed or funded by the Florida Department of Children and Families.~~

Policies

~~C.1.3.1 The Town shall ensure that the Zoning Ordinance and Land Development Regulations include criteria for the establishment of housing for the elderly and those persons who require group home living arrangements. Such criteria shall include factors such as overall location outside of Coastal High Hazard Areas, accessibility, convenience and infrastructure availability.~~

**D. INFRASTRUCTURE ELEMENT
GOALS, OBJECTIVES, AND POLICIES**

GOAL D.1

The Town of Marineland shall ensure the provision of potable water, sanitary sewer, drainage, and solid waste facilities and services to meet existing and projected demands ~~identified in this plan of the Town.~~

OBJECTIVE D.1.1- LEVEL OF SERVICE STANDARDS

The Town of Marineland shall implement procedures to ensure that at the time a development order is issued, adequate facility capacity is available or will be available when needed to meet the impacts of development.

Policies

D.1.1.1 The following level of service standards shall be used as the basis for determining the availability of facility capacity and the demand generated by a development or redevelopment.

<u>Facilities</u>	<u>Level of Service Standards</u>
Sanitary Sewer	100 gal. per capita per day
Potable Water - Consumption	100 gal. per capita per day
Solid Waste	9.3 pounds per capita per day
Drainage Facilities	25-year frequency, 24-hour duration Rainfall Intensity Curve zone 5 DOT Drainage Manual

~~Regardless of the area served, t~~The stormwater treatment systems must provide a level of treatment which meets the requirement of Chapter 40C-42, in particular section 40C-42.025, Florida Administrative Code (F.A.C.) to ensure that the receiving water quality standards of Chapter 62-302, ~~section 62-302.500, F.A.C.~~ are met and to ensure that the receiving water bodies and their water quality are not degraded below the minimum conditions necessary to maintain their classifications as established in Chapter 17-302, F.A.C. ~~It is intended that all standards in these citations are to~~

~~apply to all development and redevelopment and that any exemptions or exceptions in these citations, including project size thresholds, are not applicable.~~

- D.1.1.2 All improvements for replacement, expansion, or increase in capacity of facilities shall be compatible with the adopted level of service standards for the facilities.
- D.1.1.3 Connection to the potable water system and sewer facilities is required ~~by both public and private entities within Marineland.~~
- D.1.1.4 Reservations for potable water and sewer treatment capacity shall be maintained for future development as part of the development review process.
- D.1.1.5 Reuse or reclaimed water will be used for irrigation throughout Marineland as feasible.

OBJECTIVE D.1.2- CONCURRENCY

The Town shall ~~implement~~ maintain procedures to ensure that at the time a development permit is issued, adequate facility capacity is available or will be available when needed to serve the development. All system improvements for replacement, expansion, or increase in capacity of facilities shall comply with the adopted level of service standards for the facilities while maximizing the use of existing facilities.

Policies

- D.1.2.1 Permits shall not be issued for new development which will reduce the quality or quantity of existing or future potable water supplies below the adopted LOS standards.
- D.1.2.2 New public infrastructure and public services shall be constructed and expanded in an orderly manner, with costs shared as appropriate, on a proportionate basis, by those benefiting from the service.
- ~~D.1.2.3 By January 2007, the Town shall conduct a cost feasibility study regarding municipal operational responsibility for the potable water and sewer treatment systems.~~

OBJECTIVE D.1.3- WATER CONSERVATION

Land Development Regulations shall include ~~maintain~~ maintain requirements for water conservation for domestic, public, and commercial uses ~~such as wastewater reuse and rainwater collection system (e.g. cisterns) for non-potable water such as irrigation, water saving toilets and other plumbing fixtures.~~

Policies

- D.1.3.1 The Land Development Regulations shall maintain water conservation programs shall be developed which provide provisions to require for the use of water saving devices, limit landscape watering, promote xeriscape (other than re-use water from the wastewater treatment plant) to certain hours during droughts, provide for and the use of drought resistant native plants and, in general, promote public education and awareness of the benefits of conserving water.
- D.1.3.2 The Town shall enforce Land Development Regulations which embody building construction standards of the Florida Building Code which govern tank capacities and flush rates for toilets and maximum flow rates for shower heads and faucets. The Town shall enforce the Florida Building Code which requires water conservation devices in all new developments and redevelopment.
- D.1.3.3 The Town’s Water Supply Facilities Work Plan is incorporated into the comprehensive plan as Appendix A of the Infrastructure Element.
- D.1.3.4 The Town will maintain a Water Supply Facilities Work Plan that is coordinated with SJRWMD’s North Florida Regional Water Supply Plan (NFRWSP) by updating the work plan and related comprehensive plan policies within 18 months of an update to the NFRWSP that affects the Town. In addition, the Town will participate in the development of updates to NFRWSP and other water supply development-related initiatives facilitated by SJRWMD that affect the Town.
- D.1.3.5 The Town will monitor its water supply planning process to ensure that the Town accounts for and meets Marineland’s current and future water needs.

D.1.3.2

OBJECTIVE D.1.4- PROVISION OF SANITARY SEWER SERVICE

The Town shall undertake the necessary steps to provide and maintain sanitary sewer for future development.

Policies

- D.1.4.1 The Town shall maintain the adopted level of service for sanitary sewer by prohibiting development that exceeds the capacity of the sanitary sewer/wastewater treatment facility.
- D.1.4.1 The Town shall ensure, through quarterly monitoring, qualified service personnel maintain the facilities and meet all DEP requirements.

D.1.4.2 Septic tanks shall not be allowed to be permitted in the Town of Marineland.

OBJECTIVE D.1.5- PROVISION OF SOLID WASTE DISPOSAL

The Town shall ~~provide~~ assure safe and sanitary disposal of solid waste material for all residential and nonresidential uses within its limits by the use of qualified private contractors ~~or through an interlocal agreement with Flagler County.~~

Policy

D.1.5.1 The Town shall encourage recycling, compositing, and other waste reduction programs which will reduce the amount of solid waste ~~in an effort to maximize the use of landfill space.~~

OBJECTIVE D.1.6- FLOOD PREVENTION & PROTECTION

The Town of Marineland shall ensure that residents and property in the Town are protected from hazards of flooding and that the quality of the Intracoastal Waterway and saltwater marshes are not degraded by impacts of development.

Policies

D.1.6.1 Marineland shall require all development to obtain the required permits from the St. Johns River Water Management District before a construction permit or development order is issued.

D.1.6.2 The Town shall ~~require~~ promote the use of natural and nonstructural methods for the treatment and conveyance of stormwater where feasible and appropriate.

D.1.6.3 The Town shall protect the flood storage capacity of the salt water marshes by prohibiting dredge and fill activities in the marshes.

D.1.6.4 The Town shall require buffers of native vegetation along the Intracoastal Waterway, water bodies, and stormwater retention ponds, which provide filtering of storm water pollutants.

OBJECTIVE D.1.7 –STORMWATER MANAGEMENT

Land Development Regulations shall ~~include the~~ maintain the requirement of a detailed drainage plan for all new developments to prevent unnecessary additional runoff to the ICW.

Policies

- D.1.7.1 The Town will not allow any activities which either alone or in combination with other activities in the Town will result in the degradation of Intracoastal Waterway below Class II water quality standards

- D.1.7.2 Any and all discharges into the Intracoastal Waterway will be required to meet the requirements and standards set forth in Rule 62-4.242, F.A.C, Antidegradation Permitting Requirements

E. COASTAL/CONSERVATION/COASTAL MANAGEMENT ELEMENT**GOALS, OBJECTIVES, AND POLICIES****GOAL E.1 COASTAL MANAGEMENT**

Provide for the conservation, environmentally sound use and protection of all natural, cultural, and historic resources; and protect human life and property in the coastal area of Marineland, Florida.

OBJECTIVE E.1.1 - NATURAL RESOURCES

Protect the coastal wetlands and wildlife habitats in Marineland through preservation and the quality of the Intracoastal Waterway by maintaining Class II Classification. Conserve an average of not less than 50% of the native wildlife habitats located in Marineland and conserve contiguous native vegetation to the extent that it preserves the integrity of the wildlife habitats.

~~E.1.1~~ E.1.1 The coastal saline marshes within the Matanzas River Estuary and Intracoastal Waterway and the interior freshwater wetlands ~~shown on Figure E-11 in the Coastal/Conservation Element data and analysis shall be designated as part of the Conservation areas on the Future Land Use Map.~~

~~E.1.1~~ E.1.2 No dredging or filling, except that associated with pilings for elevated walkways and boardwalks, shall be permitted in the coastal saline marshes within the Matanzas River Estuary and Intracoastal Waterway and the interior freshwater wetlands ~~Conservation areas.~~ Natural surface water flow regimes into and through these wetlands systems shall be maintained to the maximum extent possible. Where access is to be provided through these wetlands, elevated boardwalks shall be utilized.

~~E.1.2~~ E.1.3 ~~The maritime coastal hammock shall be maintained and protected as specified in the Future Land Use Element. Land development regulations shall regulate address development within the Maritime Hammock Overlay District and include maintain design standards that retain at least 50% of the native maritime coastal hammock per parcel and that protect the drip line of the preserved trees.~~

~~E.1.3~~ E.1.4 The Town shall prohibit development that requires dredging or filling that would result in the destruction of grass or algal flats or other benthic communities, except for maintenance of existing structures in the Matanzas River Estuary.

~~E.1.4~~ E.1.4 ~~The Town will encourage continued water quality monitoring of benthic habitats and coastal fisheries in order to improve permitting processes and to guide future coastal restoration and enhancement activities.~~

- E.1.1.5 ~~The Town shall adopt Land Development Regulations that address stormwater management by including, at a minimum, require that the stormwater regulations/standards provided by the St. Johns River Water Management District for Outstanding Florida Waters are adhered to.~~
- E.1.1.6 ~~The Town shall ~~develop a~~ seek funding for a Stormwater Master Plan ~~by 2020 that addresses discharge into the Intracoastal Waterway through point and non-point sources, adaptive re-use of stormwater for irrigation needs and discharge into the River to Sea Preserve, as permitted by the management plan.~~~~

OBJECTIVE E.1.2- BEACH & DUNE PROTECTION

To enhance beaches and dunes by planting native plants and marine communities ~~by 2020.~~

- E.1.2.1 ~~Where b~~Beach restoration or renourishment is conducted, the project should be designed and managed to minimize damage to the offshore marine community and sea turtle nesting areas.
- E.1.2.2 Beaches should be stabilized by planting appropriate dune vegetation and pedestrian impacts should be minimized by providing elevated foot paths. All subsequent activities on or bordering the restored beach should be compatible with beach maintenance.
- E.1.2.3 No removal of rock or other material from the beach or waters should be permitted.
- E.1.2.4 Revetments and/or sand fences should be maintained and expanded to the north end of Marineland along the beach to prevent damage to shoreline structures and further dune erosion in the event of storm activity.
- E.1.2.5 The Town shall coordinate with Flagler and St. Johns Counties to pursue grant funding to protect and stabilize the dune system and enhance the beach face to encourage sea turtle nesting.

OBJECTIVE E.1.3 WATER QUALITY

To maintain the existing high quality of coastal and estuarine waters.

- E.1.3.1 All new development shall be required to implement stormwater management techniques that emphasize retention and infiltration techniques and low maintenance salt-tolerant native landscaping that needs no fertilizer or pesticides.

- E.1.32 Require that bulkhead repair or construction include the placement of riprap except where placement would be a hazard to navigation or public safety. Alternatives to rip-rap, such as an area of wave-absorbing material built into a sea wall, should be evaluated for use in places where rip-rap is not practical or safe.
- E.1.33 Limit the use of insecticides, herbicides, and pesticides to protect the quality of the upland vegetation and the estuaries.
- E.1.34 The Town will not allow any activities which either alone or in combination other activities in the Town will result in the degradation of the Matanzas River below Class II (Outstanding Florida Waters) water quality standards.
- E.1.35 Any and all discharges into the Intracoastal Waterway will be required to meet the requirements and standards set forth in Rule 62-4.242, F.A.C, Antidegradation Permitting Requirements.

OBJECTIVE E.1.4-SHORELINE USES

To require that the shoreline continue to be devoted to water-dependent and water-related uses.

- E.1.4.1. Existing water-dependent uses (~~i.e., uses which cannot exist or occur without association with coastal or estuarine water masses~~) should be maintained. ~~Existing operations should be~~ and upgraded, ~~where necessary,~~ to meet applicable water quality and other environmental standards.
- E.1.42 All new developments ~~other than single family or duplex residences~~ along the shoreline should be water-dependent, water-related, ~~or at a minimum should~~ which includes environmentally compatible shoreline access facilities ~~such as walkways, piers and viewing areas. Such water access facilities shall be designed to~~ that provide internal connectivity.
- E.1.43 ~~Only those floating or fixed~~ All water-dependent structures over or upon coastal or estuarine waters which are water-dependent and are allowable under must be in compliance with all applicable federal, state, and local laws and shall be permitted in, by the applicable agencies over or upon coastal or estuarine waters.

E.1.4.4 Future marinas shall be limited to expansion and/or improvement of the existing marina. ~~Any expansion or improvement of the existing marina shall have a minimum depth of seven (7) feet at mean low tide in the marina basin and direct access to the Intracoastal Waterway through a channel with a minimum of eight (8) feet depth at mean low tide.~~

E.1.4.5 Improvements or additions to the existing marina facility shall be compatible with the existing surrounding land uses, and shall preserve the quality of the estuarine waters, water circulation, tidal flushing and light penetration.

OBJECTIVE E.1.5-HURRICANE EVACUATION

Evacuation clearance times should be maintained or reduced to ~~less than 12 hours.~~

Policies

E.1.5.1 Marineland shall coordinate with Flagler County and St. Johns County ~~develop a public education program to notify households, the attraction, operators of hotels, motels, condominiums~~businesses and research facilities in Marineland of their need to evacuate in the event of a hurricane.

~~E.1.5.2 Detailed instructions and maps showing primary and backup evacuation routes, public shelters and designated safe areas, shall be printed and made available to residents and visitors to Marineland through hotels, motels, businesses and other appropriate distribution points within the Town. Each new dwelling unit shall be provided with this information when a certificate of occupancy is issued.~~

~~E.1.5.3~~E.1.5.2 The Town of Marineland will submit its promote the evacuation plans ~~of~~ Flagler and St. John's counties ~~for that are coordinated~~ and integrated into the regional and local plans and will attend coordination meetings on the regional/local plans.

OBJECTIVE E.1.6-HAZARD MITIGATION

~~The Town of Marineland shall ensure that building and development activities areas are carried out in a manner which minimizes the danger to life and property. Marineland shall provide a timely review of the hazard mitigation and evacuation implications of applications for rezoning, zoning variances or subdivision approvals for all new development in areas subject to coastal flooding to minimize the danger to life and property.~~

E.1.6.1 Within the coastal high hazard area, public expenditures that subsidize additional development above the densities and intensities depicted on the Future Land Use Map, shall be restricted.

- E.1.6.2 The construction of or placement of new mobile home parks shall be prohibited in Marineland.
- E.1.6.3 A comprehensive marina hurricane contingency plan shall be ~~developed and maintained by the marina operator, approved by and submitted to the Town and Flagler County that describes what owners are expected to do with their boats in the marina in the event of a hurricane.~~
- E.1.6.4 New sanitary sewer facilities in Marineland shall be flood-proofed such that raw sewage shall not leak from sanitary sewer facilities during flood events and septic tanks shall be prohibited in Marineland.
- E.1.6.5 Structures in Marineland shall be designed to ~~withstand the wind loads of 130 mph or as specified in the~~ the most current edition of the Florida Building Code as amended from time to time, whichever is greater.
- E.1.6.6 ~~To mitigate flooding hazards, t~~The lowest habitable floor of any structure in Marineland shall be required to be at or above the base flood elevation established by ~~specified in the most current FEMA Flood Insurance Study for Marineland.~~
- E.1.6.7 Beaches and dunes in Marineland shall be protected from alteration or development activities that would reduce the effectiveness in buffering storm effects.

OBJECTIVE E.1.7-POST DISASTER DEVELOPMENT/REDEVELOPMENT

Marineland shall coordinate with Flagler and St. Johns Counties to provide immediate response to post-disaster situations.

- E.1.7.1 Marineland shall participate in any updates to Flagler County's local mitigation strategy for disaster and post-disaster planning.
- ~~E.1.7.2 After a hurricane or other disaster, but prior to re-entry of the population into evacuated areas, the Marineland Town Commission shall meet to hear preliminary damages assessments and appoint a Recovery Task Force through coordination with Flagler County.~~
- ~~E.1.7.3~~E.1.7.2 ~~The Recovery Task Force~~Town Commission shall review and decide upon emergency building permits, coordinate with state and federal officials to prepare disaster assistance applications, analyze and recommend ~~to the Town Commission~~ hazard mitigation options ~~including reconstruction or relocation of damaged public facilities, develop a redevelopment plan, and recommend amendments to the comprehensive plan and other appropriate policies and procedures.~~

~~E.1.7.4~~E.1.7.3 Immediate repair and cleanup actions needed to protect the public health and safety including repairs to potable water, wastewater and power facilities, removal of debris, stabilization or removal of structures about to collapse, and minimal repairs to make buildings habitable shall receive first priority in permitting decisions. Long-term redevelopment activities shall be postponed until the recovery task force has completed its tasks.

~~E.1.7.5~~ The recovery task force shall propose comprehensive plan amendments, which reflect the recommendations in any interagency hazard mitigation reports. The Town shall participate in the local mitigation strategy process as a requirement of the state Disaster Mitigation 2000 program.

~~E.1.7.6~~ If rebuilt, structures which suffer significant damage exceeding 50% of their appraised value shall be rebuilt to meet all current requirements including those enacted since construction of the structure.

~~E.1.7.7~~ Structures which suffer repeated damage to pilings, foundations, or load-bearing walls shall be required to rebuild landward of their current location or shall be modified to delete the areas most prone to damage.

~~E.1.7.8~~ Marineland shall develop and adopt a formal decision-making process to evaluate options for damaged public facilities including abandonment, repair in place, relocation, and reconstruction with structural modifications. This process shall consider these options in light of factors such as cost to construct, cost to maintain, recurring damage, impacts on land use, impacts on the environment, and public safety.

~~E.1.7.9~~ As part of an overall County local mitigation strategy, Marineland shall identify structures in the Coastal High-Hazard Area, inventory their assessed value, judge the utility of the land for public access, and make recommendations for acquisition and post-disaster opportunities.

~~E.1.7.10~~ Marineland shall incorporate the recommendations of the hazard mitigation annex of Flagler and St. Johns Counties and any applicable existing interagency hazard mitigation reports.

OBJECTIVE E.1.8- COASTAL HIGH HAZARD AREA (CHHA)

Infrastructure shall be available at the level of service specified in this comprehensive plan at the time development occurs to serve the development and redevelopment proposed in the land use element for the coastal area.

- E.1.8.1 Infrastructure within the Coastal High-Hazard Area shall be limited to public beach or shoreline public access or use, resource restoration and capital improvements necessary to provide service to the resident population including potable water, sanitary sewer, transportation networks and critical functions of the Town.

OBJECTIVE E.1.9 - BEACH ACCESS

Increase environmentally sound public access to beaches and shores, preserve traditional shoreline uses and prevent further impacts of man-made structures and activities on coastal resources.

- E.1.9.1 No filling, spoiling, or placement of structures in or over coastal or estuarine waters should be permitted to diminish water surface areas traditionally used by the general public for activities such as fishing, swimming and boating.
- E.1.9.2 A wide range of public water-oriented opportunities should be provided at the water's edge within the coastal area of Marineland including greater public access to the Intracoastal Waterway and public access to the ocean by elevated walkways.
- E.1.9.3 Public or private shoreline developments should include shoreline features such as boardwalks or pedestrian walkways with interconnectivity to the A1A walkway and interior walkways.
- E.1.9.4 Existing environmentally sound access for the public to the beach and Intracoastal Waterway shoreline shall be maintained by new development.

OBJECTIVE E.1.10 - HISTORIC RESOURCES

Protect, preserve and sensitively reuse the historic resources ~~throughout the planning period in the Town.~~

- E.1.10.1 The Town shall support preservation and reuse of the Marine Studios and all historic site and archives that enhances public education while maintaining eligibility on the National Register of Historic Places.

~~OBJECTIVE E.1.11 – INTERGOVERNMENTAL COORDINATION~~

~~An intergovernmental coordinating mechanism shall be maintained in order to manage coastal resources affecting or affected by governments other than Marineland.~~

~~E.1.11.1~~ ~~Marineland shall review the comprehensive plans of Flagler and St. Johns Counties to determine if coastal resources, especially the beach and Intracoastal Waterway systems, are being managed in a consistent manner. Marineland will review plans for development adjacent to Marineland's boundaries in Flagler and St. Johns Counties to assure protection of the native vegetation, fish and wildlife communities.~~

~~E.1.11.2~~ ~~Marineland shall request notification of beach renourishment activities of adjacent local governments as well as any development activity within or adjacent to Pellicer Creek.~~

OBJECTIVE E.1.11 – PERILS OF FLOOD

The Town of Marineland shall continue to assess the current and future risks to human life and property from floods and other natural hazards in the coastal areas and implement development and redevelopment strategies that reduce such risks.

E.1.11.1 The Town of Marineland shall maintain and update, as needed, all maps—including FEMA flood zones and repetitive claim maps, storm surge/Coastal High Hazard Area maps and sea level rise impact maps—identifying current and potential future areas subject to high flood hazard.

E.1.11.2 The Town of Marineland shall continue to document and maintain maps of extreme high tides (“king tides”), more frequent severe rainfall events and newly revealed areas at risk of flooding to efficiently target mitigation efforts.

E.1.11.3 The Town of Marineland shall continue to provide flood relief and cleaning operations to lessen business’ and residents’ hardship after a major rainstorm and document the after-the-storm efforts to evaluate and recommend implementation of minor improvements and projects to be included in the Capital Improvement Plan.

E.1.11.4 The Town of Marineland shall continue to utilize the Future Land Use Map as the basis for development and redevelopment. The siting, design and development of structures shall be consistent with regulations contained in the Florida Building Code, as amended from time to time.

- E.1.11.5 The Town of Marineland shall manage its planning, regulatory and any utility services to steer future population concentrations away from the Coastal High Hazard Area- (CHHA), which is defined as the area below the elevation of the Category 1 Storm Surge line as established by a Sea, Lake, and Overland Surges from Hurricanes (SLOSH) computerized storm surge model.
- E.1.11.6 The Town of Marineland shall not approve any increases in hotel/motel beds and residential densities in the CHHA that would increase evacuation times above the 16 hours level of service for out-of-county hurricane evacuation for a Category 5 Storm event as measured on the Saffir-Simpson scale as provided in Section 163.3148(7)(b), F.S.
- E.1.11.7 Redevelopment of existing dwelling units located in the CHHA is prohibited unless an engineering study supports that redevelopment can occur in a safe manner when considering building construction, design, siting and future storm events.
- E.1.11.8 The Town of Marineland shall limit public expenditures in the CHHA or flood-prone areas by restricting expansion/improvement of the existing utilities except for improvements necessary to: 1) correct current deficiencies; 2) serve planned redevelopment pursuant to the Community Redevelopment Area (CRA) Community Redevelopment Plan; or 3) improve environmental quality.
- E.1.11.9 The Town of Marineland shall require that any development activities seaward of the Coastal Construction Control Lines (CCCL) established pursuant to Chapter 161.053, F.S. be consistent with the statutory provisions.
- E.1.11.10 The Town of Marineland shall continue to revise building codes and land development regulations to enhance flood mitigation measures in vulnerable areas to reduce future risks associated with high tide events, storm surge, flash floods, stormwater runoff, and the related impacts of sea level rise. In these areas, the Town shall require vulnerability reduction measures for all new development, redevelopment, and infrastructure such as additional hardening, higher floor elevations or incorporation of natural infrastructure for increased resilience.
- E.1.11.11 The Town of Marineland shall consider, whenever feasible, purchasing properties in areas most vulnerable to destructive storm surges for recreational uses and open space.

- E.1.11.12 Rise in sea level projected by the Federal Government (National Oceanic and Atmospheric Administration) shall be taken into consideration in all future decisions regarding the design, location, and development of infrastructure and public facilities in the potentially affected areas.
- E.1.11.13 The Town of Marineland shall recognize the CHHA as an Adaptation Action Area (AAA) for those low-lying coastal zones that may experience coastal flooding due to extreme high tides and storm surge and are vulnerable to the impacts of rising sea level. (§163.3177(6)(g)(10), F.S.).
- E.1.11.14 The Town shall continue to require development and redevelopment be consistent with the flood construction requirements in the Florida Building Code and applicable flood plain management regulations set forth in 44 C.F.R. part 60.
- E.1.11.15 The Town shall take steps to participate in the National Flood Insurance Program Community Rating System, administered by FEMA. The initial step will be adopting the state model flood damage prevention ordinance.

GOAL E.2 CONSERVATION MANAGEMENT

To ensure the protection of natural resources and systems by meeting stewardship responsibilities, and to sensitively respond to constraints posed by: 1) the ability of natural systems to absorb and mitigate air quality impacts; 2) the quantity and quality of ground water and surface water resources; 3) freshwater, estuarine and marine wetland and deepwater habitats; 4) native upland habitats; and 5) fish and wildlife population.

OBJECTIVE E.2.1 – AIR QUALITY

To maintain acceptable air quality levels within the community by maintaining Federal and State air quality parameters.

Policies

- ~~E.2.1.1~~ ~~Industries that would have a negative effect on air quality shall be prohibited from occurring within the community town limits.~~
- E.2.1.2 Clearing of native habitat shall be minimized by requiring site specific location of streets and buildings within disturbed areas. Destruction of native habitat shall be minimized.
- ~~E.2.1.3~~ ~~In order to minimize the required use of automobiles and thereby automobile emissions and air pollution, the following design principles shall be implemented:~~
- ~~a. a sufficient diversity of land uses shall be provided to allow the regular needs of residents to be met within the community,~~

- ~~b. dwellings, shops and workplaces shall be located in close proximity to one another;~~
- ~~c. Use of electric carts is encouraged to reduce the reliance on traditional vehicles.~~

~~E.2.1.4~~E.2.1.3 To encourage pedestrian and bicycle use within the community:

- a. there shall be limited streets and priority given to pedestrian and bicycle uses;
- b. there shall be a network of streets and paths designed to shorten trip length and reduce traffic on any one street;
- c. there shall be traffic calming devices such as limited vehicle speeds on streets and intersections shall be controlled by signage, obstacles or other means that are consistent with the beachfront urban streetscape design.
- d. streets shall be designed and detailed to encourage pedestrian activity and discourage unnecessary automobile use; and
- e. parking shall be limited at shops and work places.

OBJECTIVE E.2.2-WETLAND AND DEEPWATER HABITAT PROTECTION

To maintain within ~~the community~~Marineland the functions and values provided by wetlands and deepwater habitats ~~by monitoring the percentage change in acreage of each wetland and deepwater habitat.~~

E.2.2.1 No activity shall be allowed that results in the alteration, degradation or destruction of wetland and deepwater habitats except for the purposes ~~of~~when permitted by all applicable the State and Federal agencies:

- a. providing docks for public fishing access to the estuary, ~~where such are permissible under state law, and where disturbance to habitat is minimal would be minimized by good design,~~
- b. providing for maintenance and expansion of the existing marina, ~~where such activities are permitted under State law.~~
- c. Providing for a non-motorized canoe and kayak launch within the River To Sea Preserve.

E.2.2.2 Whenever any wetland or deepwater habitat is degraded or destroyed, mitigation shall be provided through the creation of new wetland or deepwater habitat, through restoration of degraded habitat, or through enhancement of the functions and values provided by existing habitat areas.

- E.2.2.3 A buffer zone of native upland habitat, with intact canopy, and understory and ground cover shall be protected and shall be maintained at the boundary of all wetland areas. As a minimum, this buffer zone shall be 50 feet wide. Within the first 25 feet landward of the jurisdictional line only elevated boardwalks, which provide access to waterways will be allowed. Removal of vegetation shall be prohibited in this area. Within the second 25 feet minimal encroachment shall be allowed which includes elevated boardwalks and passive recreational uses which do not adversely impact native vegetation.

OBJECTIVE E.2.3- UPLAND HABITAT PROTECTION

To preserve sufficient native upland habitat of each community type and to maintain viable populations of all native plant and animal species which currently exist in Marineland ~~within the community by measuring type and number of species found within the habitat.~~

- E.2.3.1 ~~Those upland habitat areas indicated as~~ Lands designated as Conservation areas on the Future Land Use Map, ~~or as part of the River to Sea Preserve,~~ shall be preserved intact and in perpetuity as natural areas.

- E.2.3.2 Allowed disturbances to these preserve areas shall be strictly limited to those necessary to provide pedestrian walkways and small picnic areas, where such can be provided without damage to habitat value and to manage habitat functions as dictated in the River to Sea Preserve Management Plan.

- E.2.3.3 The values of native upland habitats which occur within the Town shall be protected through the following:

- a. Locating buildings, streets and utilities to minimize disturbance of vegetation and to utilize the least environmentally sensitive portion of the site;
- b. Providing larger lots in sensitive habitat areas;
- c. Land development regulations shall limit lot coverage by buildings and parking.
- d. Limiting street widths to the minimum possible to safely accommodate local traffic;
- e. Prohibiting cultivation of grass lawns in the temperate coastal hammock, and preserving live oaks in the coastal hammock community;
- f. ~~Placing all utilities underground and collocated with street, alley and footpath locations; and~~

- g. Limiting or discouraging the use of fertilizers, pesticides and herbicides.
- h. ~~Adoption of~~Maintain a Tree Protection ordinance which will protect hardwoods within the Maritime Hammock ~~which are 8 inches in diameter or greater at breast height.~~
- i. ~~Incorporating these measures into Marineland's land development regulations~~

E.2.3.4 ~~To the maximum extent consistent with other objectives of this plan,~~
New streets and walkways shall follow existing paths and trails and avoid disturbance of large trees, and native habitat.

E.2.3.5 Landscaping of private lots shall be limited to native species adapted to soil and climate conditions present.

E.2.3.6 A minimum of 50 percent of each single family lot or parcel of multi-family development within the Maritime Hammock Community will be preserved with intact under story and ground cover.

~~E.2.3.7~~ ~~A minimum of 75 percent of the tree canopy on each single family lot or parcel of multi family development within the Maritime Hammock Community will be preserved. Land development regulations will be adopted by the Town, which establishes standards for activities, such as, tree trimming, which may affect the tree canopy within the Maritime Hammock Community.~~

~~E.2.3.8~~E.2.3.7 Regulate the removal of canopy trees within the Maritime Hammock Community within the Town and ~~adopt appropriate~~ require mitigation for tree removal through the Town's Tree Protection Ordinance.

~~E.2.3.9~~E.2.3.8 ~~Regulate development with strict site design standards~~ The tree protection ordinance shall ~~that~~ protect the numerous live oaks and hardwoods within the Town of Marineland.

OBJECTIVE E.2.4-ENDANGERED AND THREATENED PLANT & ANIMAL SPECIES

Prevent adverse impacts to endangered and threatened plant animal species that are dependent on habitats which occur within the community by monitoring changes in occurrence of listed plant and animal species.

E2.4.1 Endangered or Threatened Plant and Animal Species shall include all species listed as such by the United States Fish and Wildlife Service (USFWS), Florida Natural Areas Inventory (FNAI), the State of Florida, or the Florida Committee on Rare and Endangered Plants and Animals (FCREPA).

E242 The Town shall require ~~environmental experts, as needed,~~ applicants to assess the impact of proposed development on endangered and threatened plant and animal species ~~that may be dependent on habitats which occur within the Town's jurisdiction. Such impact analysis shall be provided by the applicant and must be presented to the Town Commission prior to the Commission making any decision prior to granting final development approval to~~ for the proposed development.

E243 No activities which would significantly affect any endangered or threatened plant or animal species shall be allowed to occur.

E244 To reduce the potential interactions between boats and manatees the Town will seek a designated no wake zone in that portion of the Intra-Coastal Waterway adjacent to the marina.

E245 The Town will ensure that no loss of moderate and high quality submerged seagrasses or not net loss of low quality or disturbed submerged seagrasses will be allowed by activities or action undertaken by or within the Town.

OBJECTIVE E.2.5-WATER CONSERVATION

To limit consumption of water resources to levels that can be sustained without adverse impact to natural systems.

E251 The need for irrigation water shall be minimized by conservation and maintenance of native habitats to the maximum extent consistent with other objectives of this plan.

E252 Landscape material shall be limited to drought and salt tolerant native species adapted to soil and climatic conditions found within the community.

E253 Use of water saving devices, including irrigation systems (e.g. drip type), and plumbing fixtures shall be required to the maximum extent feasible.

~~E254 The source of irrigation water shall be limited to treated wastewater effluent or water collected in cisterns.~~

~~E255~~ E254 No private residential wells shall be allowed within the community. ~~Reuse water or rainwater shall be the primary source of irrigation.~~

~~E255~~

~~E256~~ Water use shall be metered and rates structured to encourage conservation of water. ~~Premiums collected as a result of rate structure may be used to support water conservation programs.~~

E257

The Town shall conduct a feasibility study to examine the possibility of municipal ownership of water and sewer service. ~~The study shall include water conservation strategies as part of municipal ownership. Upon completion the Town will decide on whether to purchase the water and sewer service provided to the Town.~~

~~E258~~

~~Individual swimming pools shall be prohibited. Community swimming pools, to be used and maintained by the residential community shall be permitted within common areas. (The intent of this policy is to minimize water use as well as the impact on natural areas that would be impacted by individual pool construction).~~

F. RECREATION AND OPEN SPACE ELEMENT GOALS, OBJECTIVES, AND POLICIES

GOAL F.1

Design, develop and maintain a community with a socially effective civic realm that includes sufficient recreation facilities to meet the needs and demands of the Town of Marineland's citizens and visitors.

OBJECTIVE F.1.1- PROVISION OF PUBLIC RECREATIONAL RESOURCES

Coordination of public and private resources in the provision of specific public places that can accommodate a variety of leisure pursuits for a variety of age groups as well as the community as a whole. Development design should reflect these recreation and open space needs and desires.

Policies

- F.1.1.1 Provide for generally accessible town greens/open spaces or commons areas for special civic and ceremonial events and to create town social cohesiveness.
- F.1.1.2 Provide for recreation greens/open spaces and/or sheltered public gathering areas that promotes socialization for age-based recreation activities to meet the needs of the Town population.
- F.1.1.3 The River to Sea Preserve shall not be reduced in size.
- F.1.1.4 The sunset across the river shall remain an accessible community event as a viewscape.
- F.1.1.5 ~~Using t~~The existing organizational infrastructure of various stakeholders supported by the Town of Marineland, ~~the University of Florida Whitney Laboratory, the Oceanarium attraction, Guana Tolomato Matanzas National Estuarine Research Reserve (GTMNERR), and the Community Redevelopment Agency (CRA)~~ are encouraged to promote and provide a series of educational and performance based conferences and events that citizens and visitors may attend. Provide access to these events through creative transportation such as electric carts and access to bicycle paths.
- F.1.1.6 The Town shall seek a "NO WAKE ZONE" (speed limited zones) designation along the Intracoastal waterway/Matanzas River and around the marina to prevent boating accidents, shoreline erosion, protection of saltwater marshes, endangered manatees, and other marine life.

F.1.1.7 Provide for areas and amenities such as pavilions, picnic tables, barbecue grills, etc. with an ocean view as well as additional picnic areas that provide a view of the Matanzas River Estuary accessible from nature trails within the River to Sea Preserve.

F.1.1.8 Provide interpretive displays explaining wildlife, vegetation and ecological systems present on site. Displays shall describe the project site's cultural and archaeological features and water bodies present within the River to Sea Preserve.

~~F.1.1.9 Allow for up to 20 cabins within the River to Sea Preserve. These cabins will be developed under a low impact development strategy, minimizing tree removal, blending them into the natural landscape, and employing the “Old Florida” vernacular style that utilizes porches, gabled roofs, and wood-like exteriors.~~

OBJECTIVE F.1.2- BEACH ACCESS

Continue to improve public access to the river and beach through the year ~~2020~~2040.

F.1.2.1 Ensure public access to the beach by maintaining points of access walkways, boardwalks over the dunes, and providing picnic pavilions on the beachside to guarantee that the beach remains a primary recreational amenity of the community.

~~F.1.1.2 Provide scenic overlook platforms for viewing the saltwater marsh and Matanzas River estuary. Make accessible through boardwalks and nature trails.~~

~~F.1.2.3 The Town shall pursue additional funding for implementation of beach and river access plans to ensure public access through intergovernmental coordination involving the Department of Transportation, Department of Environmental Protection, the Florida Communities Trust Grant Program, Flagler and St. Johns Counties, the A1A Scenic Corridor Plan, and the Community Redevelopment Agency of the Town of Marineland.~~

~~F.1.2.4 Provide access points to the Intracoastal Waterway through kayak/canoe launch facilities, pedestrian trails and bike pathways that include picnic tables, rest areas and restroom facilities.~~

~~F.1.2.5~~F.1.2.3 The Town shall coordinate with the Florida Park Service in the implementation of the Matanzas Islands' Management Plan, ~~including assisting in funding efforts.~~

~~F.1.2.6~~F.1.2.4 Convert the two unimproved dune cuts at the River-to-Sea Preserve on the north and south end of the Town to dune walkovers.

OBJECTIVE F.1.3-ACCESS & MULTIPURPOSE TRANSPORTATION

Provide access to the river and the beach while promoting energy efficient and environmentally friendly multipurpose transportation within the community.

F.1.3.1 Consider provision of trail enhancement through widening ground coverage using wood chips, crushed shell and/or natural materials while maintaining natural growth of indigenous vegetation.

F.1.3.2 The Town shall cooperate with Flagler County and St. Johns County in efforts to establish a multi- purpose, continuous pedestrian/bicycle path through the S.R. A1A corridor. (~~Transportation Element: Policy: B.1.6.6~~)

F.1.3.3 The Town shall provide bike pathways that link access points on the Matanzas River Estuary to the A1A Corridor bike pathways.

**G. INTERGOVERNMENTAL COORDINATION ELEMENT
GOALS, OBJECTIVES, AND POLICIES**

GOAL G.1

Establish effective Intergovernmental Coordination processes that aid in the provision of services, improve development activities and accommodate the needs of the Town's existing and future growth.

**OBJECTIVE G.1.1 ESTABLISHMENT OF INTERGOVERNMENTAL REVIEW
AND COORDINATION**

The Town shall institute a formal process for intergovernmental coordination with Flagler and St. Johns Counties which establish specific coordination activities to occur with each of the local governments on a regular basis.

Policies

- G.1.1.1 The Town shall coordinate activities with other governmental, public, and private entities, to coordinate the management of the estuaries, and to resolve land use conflicts and annexation issues.
- G.1.1.2 The Town of Marineland shall, when requested, provide individuals and governmental agencies with appropriate information concerning its adopted Comprehensive Plan, Comprehensive Plan amendments, Land Development Regulations, and concurrency management system, and other items as deemed appropriate.
- G.1.1.3 The Town shall coordinate with County Sheriff's and County Fire Departments to develop formal interlocal agreements with Flagler and St. Johns Counties to address police and fire protection, if determined to be necessary.

OBJECTIVE G.1.2 COORDINATION AND REVIEW OF ALL LOCAL PLANS

The Town of Marineland shall coordinate the local government comprehensive plan with the Flagler County and St. Johns County School Boards, with the Flagler County and St. Johns County Sheriff's Offices, with the Flagler County and St. Johns County Fire Departments, and with Flagler County, and with St. Johns County.

Policies

- G.1.2.1 ~~The Town shall form a special comprehensive plan coordinating committee comprised of members of the Town Commission to review development proposals and comprehensive plan amendments.~~
- G.1.2.2 The Town of Marineland shall use the comprehensive plan and land development regulations as the primary basis for coordinating development activities when reviewing development proposals and comprehensive plan amendments.

- G.1.2.3 The Town shall request Flagler County and St. Johns County to send copies of proposed comprehensive plans or plan amendments for review.
- G.1.2.4 The Town shall use its special comprehensive plan coordinating committee, or representative thereof, to participate in local government review and adoption proceedings of comprehensive plans and amendments for Flagler County and for St. Johns County.
- G.1.2.5 The Town of Marineland shall notify St. Johns and Flagler Counties of proposed amendments to its Comprehensive Plan.
- G.1.2.6 In reviewing amendments to the Comprehensive Plan, the Town of Marineland shall specifically consider the impact of the proposed amendment of the existing Comprehensive Plans of St. Johns and Flagler Counties.
- G.1.2.7 The Town shall participate in the Inter-Local Agreement with Flagler County and the Flagler County School Board to provide opportunities to discuss school planning issues as it relates to development within the town.
- G.1.2.8 The Town shall review all proposed State Road A1A transportation and improvements plans from FDOT, St. Johns County, and Flagler County to determine the impacts such projects or proposals will have on the Town's traffic circulation system.

OBJECTIVE G.1.3 LEVEL OF SERVICE STANDARDS FOR PUBLIC FACILITIES

The Town of Marineland shall establish a process whereby level of service standards for public facilities are coordinated with state, regional, and local entities which have operational, monitoring, or maintenance responsibilities for such facilities.

Policies

- G.1.3.1 The Town shall coordinate with all service providers concerning levels of service pertaining to water and sewer systems, and with the FDOT and with Flagler and St. Johns Counties concerning levels of service pertaining to SR A1A.
- G.1.3.2 The Town shall continue to investigate the feasibility of acquiring ownership of the potable water and sewer treatment facilities. Specifically, the Town shall identify possible grant funding sources and other funding mechanisms for infrastructure acquisition.
- G.1.3.3 The Town shall coordinate the timing, location, and capacity of public facilities to ensure that required services will be available when needed.

G.1.34 The Town shall work with the St. Johns County and Flagler County Commissions as necessary in developing priority plans for each of the Counties to address roadway improvement needs within Marineland.

G.1.35 The Town shall continue to work with the electric utility provider, FDOT, Flagler County and St. Johns County Public Works Departments to consider the feasibility of converting to an underground utility system.

OBJECTIVE G.1.4 LOCAL, FORMAL DISPUTE RESOLUTION PROCESS

The Town of Marineland shall develop a formal, local dispute resolution process in coordination with Flagler and St. Johns Counties.

Policies

G.1.4.1 The Town shall become party to any existing formal, local dispute resolution process adopted by Flagler and St. Johns Counties via an interlocal agreement with adjacent jurisdictions.

G.1.4.2 The Town shall use the Northeast Florida Regional Planning Council for mediation until the proposed local process is developed when inter-jurisdictional incompatibilities are identified.

OBJECTIVE G.1.5 JOINT PLANNING EFFORTS

The Town of Marineland shall coordinate the ~~Remarkable Coastal Place Master Plan~~, River To Sea Preserve Management Plan and the Community Redevelopment Plan with Flagler and St. Johns Counties, the St. Johns River Water Management District, the Department of Environmental Protection and other stakeholders.

Policies

~~G.1.5.1 The Town shall coordinate with Flagler and St. Johns Counties with regard to implementation of the Town's Master Plan, as amended.~~

~~G.1.5.2~~ G.1.5.1 The Town and Flagler County will coordinate the implementation of the River to Sea Preserve Management Plan.

~~G.1.5.3 The Town shall coordinate with regional counties to further educational opportunities within Marineland with respect to environmental and marine research.~~

~~G.1.5.4~~ G.1.5.2 The Town shall coordinate with the Guana Tolomato Matanzas National Estuarine Research Reserve to implement the Reserves management plan, within the Town, where appropriate.

~~G.1.5.5~~**G.1.5.3** The Town shall participate as a partner with the Scenic Highway Corridor Management Entity to implement the plan and vision within the Town, where appropriate.

~~G.1.5.6~~**G.1.5.4** The Town shall coordinate development activities to increase grant eligibility.

~~G.1.5.7~~**G.1.5.5** The Town shall coordinate with the Florida Park Service to manage and implement the management plan of the Matanzas Estuary Islands.

OBJECTIVE G.1.6 IMPROVEMENTS TO COASTAL AND WATERFRONT AREAS

~~By 2005, t~~The Town shall establish agreements or other mechanisms to obtain grant resources for planning activities to improve coastal and waterfront areas including those depicted in the River To Sea Preserve and other management plans addressing beach parking, dune crossovers, signage, beach restoration/revetment and waterfront redevelopment.

Policies

G.1.6.1 The Town shall improve physical access to parks and recreational sites by ~~researching and~~ applying for grants and other available funding to acquire and construct parking and access at chosen locations.

G.1.6.2 The Town shall protect its public beaches by pursuing additional funding sources to assist funding for future beach restoration/revetment projects.

G.1.6.3. The Town shall monitor and maintain the Community Redevelopment Area as a funding mechanism to improve coastal and waterfront areas.

G.1.6.4. The Town shall permit the utilization of local funds for shoreline stabilization and beach renourishment projects.

OBJECTIVE G.1.7 PUBLIC PRIVATE PARTNERSHIPS

The Town shall form public private partnerships to address the implementation of ~~the Remarkable Coastal Place Master Plan,~~ the individual management plans and Community Redevelopment Plan.

Policies

G.1.7.1 The Town shall encourage public private partnerships to increase grant and funding eligibility and to implement the goals and polices of the comprehensive plan.

G.1.7.2 The Town shall coordinate its efforts in growth management, comprehensive planning, zoning, and other development-related activities with the ~~Oceanarium, Whitney Lab, and~~ all public, private, non-profit organizations in Marineland and private property owners and actively seek input from these entities.

**H. CAPITAL IMPROVEMENTS ELEMENT
GOALS, OBJECTIVES AND POLICIES**

GOAL H.1

The Town shall ensure the orderly and efficient provision of the following public facilities necessary to serve existing and future local population needs: roads, potable water, sanitary sewer, drainage, solid waste and recreation/parks.

**OBJECTIVE H.1.1-FIVE YEAR CAPITAL IMPROVEMENTS
SCHEDULE**

Capital improvements shall be provided consistent with the Five-Year Schedule of Capital Improvements, to correct existing deficiencies, to accommodate desired future growth and to replace worn-out or obsolete facilities.

Policies

H.1.1.1 Capital improvements in the context of the Comprehensive Plan shall be defined as those improvements which are limited to a one time expenditure of and do not include expenditures for equipment, operations and maintenance costs.

H.1.1.2 The Town shall maintain an inventory which includes all deficiencies as well as projected capital improvements requirements to satisfy deficiencies and meet projected demands in the referenced subject areas of the Comprehensive Plan.

H.1.1.3 The Town shall ensure that all proposed capital improvements are consistent with each of the elements of this Comprehensive Plan.

OBJECTIVE H.1.2- LEVEL OF SERVICE STANDARDS

The Town shall adopt Level of Service (LOS) standards against which the adequacy and deficiencies of facilities may be measured.

Level of Service Standard	
Public Facility Category	Standard
Sanitary Sewer	100 gallons per capita per day
Potable Water	100 gallons per capita per day
Solid Waste	9.3 pounds per capita per day

Drainage Facilities	25-year frequency, 24-hour duration Rainfall Intensity. Regardless of the area served, the stormwater treatment systems must provide a level of treatment which meets the requirements of Chapter 40C-42, in particular section 40C- 42.025, Florida Administrative Code (F.A.C.) to ensure that the receiving water quality standards of Chapter 62-302, section 62-302.500, F.A.C. are met and to ensure that the receiving water bodies and their water quality are not degraded below the minimum condition necessary to maintain their classifications as established in Chapter 62-302, F.A.C.
---------------------	--

Policies

H.1.2.1 The standards for LEVEL OF SERVICE (LOS) which the Town shall ensure are provided for new development, and redevelopment, and which the Town shall strive to meet where existing deficiencies are noted shall be in accordance with the following criteria:

Roadway-	LOS “D” Peak Hour Traffic
Open Space and Recreation	Three public beach access points for every 0.5 miles of ocean shore One

H.1.2.2 The Town shall continually review the established local capital improvement LOS criteria on the basis of consistency with local comprehensive planning activities, cost feasibility, and effectiveness, relative magnitude and term of need, intergovernmental commitments, the ability to take advantage of other jurisdictional capital improvements and overall budget impacts.

OBJECTIVE H.1.3-PRIORITIZATION SYSTEM

The Town shall establish a system for prioritizing the scheduling of capital improvements to mitigate existing or projected deficiencies.

Policies

H.1.3.1 The scheduling of existing public facility deficiencies in the capital improvement element shall be predicated on the following criteria to ensure that the projects are being ranked in the appropriate order of their need:

Priority A

1. Capital projects currently underway for which the Town is fully committed, or which are so urgently needed that their implementation cannot be delayed.

2. Capital improvements needed to protect public health and safety.

Priority B

1. Capital improvements needed to correct existing deficiencies.
2. Capital improvements needed to replace or repair obsolete or worn-out facilities in order to maintain adopted LOS standards.

Priority C

1. Capital improvements that will increase efficient use of existing public facilities.
2. Capital improvements that will promote redevelopment and/or in-fill development.

Priority D

1. Capital improvements that represent a logical extension of public facilities to accommodate projected new development.
2. Capital improvements needed to serve developments that were approved prior to the adoption of this Plan.

H.1.3.2 The Town shall continually review the established local capital improvement prioritizing criteria on the basis of consistency with local comprehensive planning activities, cost feasibility, and effectiveness, relative magnitude and term of need, intergovernmental commitments, the ability to take advantage of other jurisdictional capital improvements and overall budget impacts.

OBJECTIVE H.1.4-EXPENDITURES WITHIN THE COASTAL HIGH HAZARD AREA

The Town shall minimize capital investment that subsidizes development in high hazard coastal areas.

Policies

H.1.4.1 Public expenditures in high hazard coastal areas shall be limited to those improvements included in the Coastal Management Element and those expenditures necessary for the health and safety of the residents of these areas as well as such improvements as are deemed to be required to facilitate use of the natural open space and recreation areas.

OBJECTIVE H.1.5-CONCURRENCY

The Town shall determine that development or redevelopment proposals are approved consistent with existing services availability or coincident with the programmed provision of additional service at the adopted LOS.

Policies

H.1.5.1 The Town shall adopt an "Adequate Facilities Ordinance" to interact with the development approval process by conditioning zoning, subdivisions and/or planned unit development upon the provisions of adequate public facilities.

H.1.5.2 The Town shall utilize existing and improved development procedures to review development proposals cognizant of the Town's adopted LOS, existing LOS and, the time frame for implementation of additional facility improvements.

H.1.5.3 The approval of proposed development or redevelopment projects shall be based on the condition of project related service needs being available at the adopted level of service standards.

OBJECTIVE H.1.6-FAIR SHARE

The Town shall require that private developers participate in any facility improvement costs necessary to maintain LOS standards.

Policies

H.1.6.1 The Town shall require the performance bonding of project related utility or traffic circulation improvements necessary to accommodate the development of vacant parcels or substantial redevelopment of existing properties.

H.1.6.2 By 2016, the Town shall review the potential use of impact fees as a means to assess new developments for needed public facilities.

OBJECTIVE H.1.7- FISCAL MANAGEMENT

The Town shall manage its fiscal resources to ensure the provision of needed capital improvements for development orders that were issued prior to the adoption of the Comprehensive Plan and for future development and redevelopment.

Policies

H.1.7.1 The ratio of outstanding indebtedness for projects, which are not financed, with the proceeds of revenue bonds shall not exceed ten percent (10%) of the property tax base in any given year once property taxes have been established.

- H.1.72 The Town shall consider a range of revenue and project cost projections based on varying assumptions with regard to the local property tax base, shared tax revenues, inflation, contingency costs and the level and sources of shared project funding commitment by other jurisdictions.
- H.1.73 Where feasible, the Town's Capital Program shall recognize specific funding sources for specific projects or project categories.
- H.1.74 The Director of Finance shall prepare annual estimates of anticipated proceeds from state revenue sharing source.
- H.1.75 The Town shall adopt guidelines which set apportionment criteria for transportation generated revenues relative to operations, maintenance and capital improvements after debt service has been met.
- H.1.76 The Town shall adopt a Five-Year Capital Improvement Schedule and an Annual Capital Budget as part of the budgeting process.

OBJECTIVE H.1.8- CONCURRENCY MANAGEMENT SYSTEM

The Town shall adopt a Concurrency Management System within one year from the date of adoption of the 2015 Comprehensive Plan.

Policies

- H.1.8.1 The Town shall ensure that public facilities are provided to serve development and redevelopment projects through the implementation of the adopted Concurrency Management System.
- H.1.8.2 The following criteria shall be used in the Concurrency Management System to determine when concurrency has been satisfied:

Category

1. The necessary facilities and services are in place at the time a development permit is issued; or
2. A development permit is issued subject to the conditions that the necessary facilities and services will be in place when the impacts of development occur; or
3. The necessary facilities are under construction when a permit is issued; or
4. The necessary facilities and services are guaranteed in an enforceable development agreement that includes the provisions of 1, 2, and 3 above.

Category 2

1. The necessary facilities and services are subject to a binding executed contract which provides for commencement of construction or provision of the required facilities and services within one year of the issuance of the development permit; or

2. The necessary facilities and services are guaranteed in an enforceable development agreement that requires commencement of construction of the required facilities or provision of the required facilities and services within one year of the issuance of the development permit.

H.1.8.3 For potable water, sanitary sewer, solid waste, and drainage, concurrency shall be met if one of the Category 1 provisions, as listed in Policy H.1.8.2, has been satisfied.

H.1.8.4 For recreation and parks, concurrency shall be met if one of the Category 1 provisions or Category 2 provisions, as listed in Policy H.1.8.2, has been satisfied.

H.1.8.5 For roads, concurrency shall be met if one of the Category 1 provisions or Category 2 provisions, as listed in Policy H.1.8.2, have been satisfied or if the road is scheduled for improvement prior to the beginning of the fourth year of the adopted Five-Year Schedule of Capital Improvements.

H.1.8.6 The Town shall establish a monitoring system to monitor the remaining capacity and deficiencies of the public facilities addressed in the Capital Improvements Element.

H.1.8.7 Prior to the approval of an application for a final subdivision plan or final site plan, the Town shall review the proposed development application to ensure that public facilities needed to support development are available consistent with Policies in this element.

H.1.8.8 The Town may approve developments in phases or stages.

H.1.8.9 In the event that road capacity is not available for a project, the project developer may elect to make a proportionate share payment to mitigate the impacts of the project and proceed, per state statute.

OBJECTIVE H.1.9-AUTHORITY

The responsible authority under applicable law shall enact all rules, regulations and ordinances necessary to implement the Comprehensive Plan.

Policy

H.1.9.1 The Goals, Objectives and Policies in the Capital Improvements Element of the Comprehensive Plan shall become effective upon adoption by the Town Council.

Five Year Schedule of Capital Improvements 2022 - 2027

<u>Project</u>	<u>Cost</u>	<u>Year</u>	<u>Funding Source</u>

I. SUSTAINABLE TOURISM ELEMENT – GOALS, OBJECTIVES, AND POLICIES

GOAL I.1

Principle of Sustainable Tourism

The Town of ~~Marineland~~ (Town) shall develop a sustainable basis for tourism development and tourism visitation based on the promotion of the natural, cultural, scientific, and educational resources within the Town.

OBJECTIVE I.1.1-PROMOTION OF SUSTAINABLE TOURISM

In promoting and developing its tourism base, the Town shall ensure that tourism and tourism related activities do not compromise the Town's character and its natural and cultural resources.

Policies

- I.1.1.1 The Town shall work with tourism related entities within the Town to monitor the balance of land uses to ensure that the carrying capacity of the Town is not exceeded.
- I.1.1.2 The Town shall develop sustainability indicators to monitor the effect of tourism on the Town's natural, cultural, scientific, and educational resources, and shall reevaluate progress toward its sustainable tourism goal accordingly.
- ~~I.1.1.3 The Town shall review appropriate national and international sustainable tourism certification programs and, if appropriate, seek municipal certification and/or encourage certification of tourism-related facilities in the Town.~~
- ~~I.1.1.4~~I.1.1.3 In approving new tourism facilities or modifications to existing tourism facilities the Town shall consider whether these facilities will adversely affect ecological processes and dynamic coastal processes.
- ~~I.1.1.5~~I.1.1.4 In approving new tourism facilities or modifications to existing tourism facilities the Town shall consider whether these facilities will adversely affect cultural resources and are compatible with the character of the Town and the region.

I.1.1.5 The Town shall amend its Land Development Regulations to allow for and encourage limited lodging facilities that would assist in housing Whitney for researchers and eco-tourists. Such a facility would be in keeping with the mass and scale of existing buildings and an “Old Florida” character. ~~Such facilities may be located within the Whitney Lab property or, with a limitation of not more than 20 units, in the River to Sea Preserve. This does not pertain to other allowable lodging-related uses in the Tourist Commercial, General Commercial, and Sustainable Mixed Use Future Land Use Map categories.~~

OBJECTIVE I.1.2-RESTORATION OF NATIVE VEGETATION

The Town shall seek to restore vegetative associations that are native to the northeast coast of Florida.

Policies

- I.1.2.1 The Town shall require tourism and tourism related facilities to use landscaping vegetation native to the region with exception of the historical landscaping designation associated with the Oceanarium Marineland flora.
- I.1.2.2 The Town shall work with private and public entities to restore and enhance the landscaping at the attraction in Marineland and to take advantage of natural formations and plant life native to the northeast Florida coast.

OBJECTIVE I.1.3-SUSTAINABLE CONSTRUCTION STANDARDS

The Town shall promote the use of sustainable construction practices for tourism and tourism related facilities.

Policies

- I.1.3.1 The Town shall encourage the use of sustainable construction techniques for new tourism related facilities, and where feasible, shall encourage retro-fitting existing tourist facilities.
- I.1.3.2 The Town shall explore the development of a “green building program” for the construction and modification of tourism and tourism related facilities.
- I.1.3.3 The Town shall encourage educational programs highlighting innovative building techniques.
- I.1.3.4 The Town shall encourage the use of wireless technology within the community.

OBJECTIVES I.1.4-COLLABORATIVE COORDINATION

The Town shall encourage cooperation among tourism related interest in Marineland and within the region.

Policies

I.1.4.1 The Town should encourage the use of Marineland stakeholders as a forum for consensus-based collaborative decision-making.

~~I.1.4.2 The Town shall encourage alternative dispute resolution mechanisms such as mediation to address tourism related conflicts within the town that can not be resolved by consensus-based processes between the interested parties.~~

~~I.1.4.3~~ I.1.4.2 The Town shall encourage tourism related entities within the Town to develop an integrated sustainable tourism business plan.

~~I.1.4.4~~ I.1.4.3 The Town shall participate in County and regional forums that relate to tourism development that may affect the Town's resources, character, and sustainability goals.

~~I.1.4.5~~ I.1.4.4 The Town shall coordinate with local, regional, and statewide entities such as the Flagler and St. Johns County Tourist Development Councils; the St. Augustine, Ponte Vedra, & the Beaches Visitors and Convention Bureau; and Visit Florida on establishing Marineland as a sustainable tourism niche and supporting the ~~Oceanarium~~.

GOAL I.2 NATURE BASED TOURISM

The Town shall take actions that are coordinated with other stakeholders that promote sustainable visitation to the River to Sea Preserve.

OBJECTIVE I.2.1-INTERGOVERNMENTAL COORDINATION

The Town shall continue working with Flagler County and other agencies in implementing the Management Plan for the River to Sea Preserve.

Policies

I.2.1.1 The Town shall continue to work with Flagler County and other agencies in acquiring funding for implementation of the management plan including use of grants and Community Redevelopment funding.

I.2.1.2 The Town shall continue to work with Flagler County and other agencies on completing the implementation of the Management Plan of the river to Sea Preserve, including developing appropriate oceanfront parking, developing beach access (dune walkovers), developing picnic shelters and a pavilion, and developing passive water-based recreational uses through means of a canoe/kayak launch.

- I.2.1.3 The Town shall continue to work with Flagler County on the development and construction of educational and interpretive signs and exhibits in the trail area of the River to Sea Preserve.

GOAL I.3 CULTURAL TOURISM

The Town shall promote cultural tourism focusing on the Town’s archeological, architectural, historical, entertainment, literary, and film resources.

OBJECTIVE I.3.1-PROTECTION OF ARCHEOLOGICAL RESOURCES

The Town shall protect archeological resources while promoting tourism and educational opportunities.

Policies

- I.3.1.1 The Town shall work with Flagler County to protect and interpret cultural resources in the River to Sea Preserve.
- I.3.1.2 The Town shall require development to consult with Native Americans and other specialists about the most appropriate way to manage archaeological resources within the Town of their development. ~~and to educate the public about Native Americans in Northeast Florida. Exhaustive efforts shall be used to~~ protect human remains and their associated burial items.
- I.3.1.3 The Town shall ~~cooperate with~~promote cultural resource agencies and interest groups ~~in the~~to development of a cultural resources education programs.
- I.3.1.4 The Town shall preserve its historical resources while promoting the Town’s historic role in the development of tourism in Florida.

OBJECTIVE I.3.2-PROTECTION OF ARCHITECTURAL CHARACTER

The Town shall seek to protect and promote the Town’s unique architectural character.

Policies

- I.3.2.4 The Town shall explore the establishment of design standards for new tourism and tourism related facilities that are consistent with the existing character and architectural style.
- I.3.2.1 The Town will continue to support the restoration of the existing historical and unique buildings and structures in the Town’s existing tourism and tourism related facilities.
- I.3.2.3 The Town shall adopt the Secretary of the Interior’s standards for the restoration of historic properties within the Town.

OBJECTIVE I.3.3-PROMOTION OF FILM & LITERARY HISTORY

The Town shall work with the appropriate institutions to promote its film and literary history.

Policies

- I.3.4.1 The Town shall support public and private efforts to inventory the film library and implement film preservation techniques.
- I.3.4.2 The Town shall encourage public and private efforts to make the contents of the film library accessible to visitors and researchers without compromising the integrity of the media.
- I.3.4.3 The Town should ~~emphasize~~ promote the role literacy icons like Marjorie Kinnan Rawlings, Ernest Hemingway, Thornton Wilder, Stephen Vincent Benet, John Dos Passos and others played in the Town’s history.

GOAL I.4 SCIENTIFIC AND EDUCATION BASED TOURISM

The Town shall promote scientific and educational programs ~~at Marineland Dolphin Adventure attraction, Whitney Laboratory, the Guana Tolomato Matanzas National Estuarine Research Reserve (GTMNERR), and the Florida Sea Grant Marine Extension Program~~ to attract science tourists, students and scientists to the Town.

OBJECTIVE I.4.1-RESEARCH & EDUCATION

The Town shall cooperate with ~~the University of Florida Whitney Laboratory~~ sustainable campus communities to continue its research and educational opportunities in order to promote science and technology based visitation in the Town.

Policies

- I.4.1.1 The Town shall support outreach programs that are sponsored by ~~the Whitney Laboratory~~ sustainable campus communities.
- I.4.1.2 The Town shall support sustainable campus communities ~~the Whitney Laboratory~~ in ~~its~~ their attempt to create more educational opportunities.
- I.4.1.3 The Town shall consider funding opportunities through grants in support of educational outreach programs sponsored by sustainable campus communities ~~the Whitney Laboratory~~, as well as funding future ~~Laboratory~~ expansion.
- I.4.1.4 The Town shall promote scientific and educational program opportunities in Marineland ~~at the Oceanarium attraction~~.

OBJECTIVE I.4.2-RESEARCH & EDUCATION

The Town shall seek to bring more educational interest to the Town through the programs offered by scientific and educational programs at the Guana Tolomato Matanzas National Estuarine Research Reserve (GTMNERR).

Policies

- I.4.2.1 The Town shall cooperate with scientific and educational programs the GTMNERR in working with estuarine programs conducted by the Florida Department of Environmental Protection.
- I.4.2.2 The Town shall cooperate with the scientific and educational programs GTMNERR in setting up the programs for adult and grade level education the GTMNERR has proposed in its the management plan.
- I.4.2.3 The Town shall cooperate with scientific and educational programs GTMNERR in its their efforts to obtain grant funds.

OBJECTIVE I.4.3-RESEARCH & EDUCATION

The Town shall cooperate with the Florida Sea Grant Extension Program in its effort to provide marine education programs in the Town.

Policies

- I.4.3.1 The Town shall ~~attempt to provide Town resources when possible to promote~~ the Florida Sea Grant College Program in its goal to provide marine education activities such as faculty retreats, seminars and workshops, estuaries training, 4H marine institutes, marine docents and Citizens- In-Science, Eco/heritage Tourism Training, Florida Coastal Awareness Program and Elder Hostels and Inner City Outings.
- I.4.3.2 The Town shall work with Florida Sea Grant Extension in other programs, with the goal of bringing more guests to the ~~Town as a result of such programs.~~

GOALS I.5 PROMOTIONAL EFFORTS

The Town shall promote its efforts to establish the Town as a prototype tourism community based on principles of sustainability.

OBJECTIVE I.5.1-PROMOTIONAL OPPORTUNITIES

The Town shall seek appropriate outlets to promote its nature, heritage and educational based tourism and visitation opportunities.

Policies

- I.5.1.1 The Town shall coordinate promotional efforts with the East Coast Greenway.
- I.5.1.2 The Town ~~and will coordinate with~~ Flagler County for the County to ~~shall~~ apply to have the River to Sea Preserve at Marineland included on the Great Florida Birding Trail.
- I.5.1.3 The Town shall use “Florida’s First Remarkable Coastal Place” ~~or other similar slogan~~ whenever appropriate.
- I.5.1.4 The Town shall work with Visit Florida’s initiatives for nature, heritage, and cultural tourism.
- I.5.1.5 The Town shall work with the A1A Scenic Highways Programs of Flagler and St. Johns Counties.
- ~~I.5.1.6 The Town shall promote its contribution to the Tri-State Heritage Initiative.~~
- ~~I.5.1.7~~ I.5.1.6 The Town shall participate through membership and/or promotional opportunities in the Tourist Development Council of both St. Johns and Flagler Counties.
- ~~I.5.1.8~~ I.5.1.7 The Town shall ~~maintain and~~ promote cultural and historical resources, especially those listed on ~~through~~ the Department of the Interior’s National Historic Registry.

OBJECTIVE I.5.2-PROMOTION OF SUSTAINABLE TOURISM

The Town shall promote its efforts as a living experiment in sustainable tourism.

Policies

- I.5.2.1 The Town shall work with tourism related entities within the Town to develop a program that utilizes the Town’s efforts as a means of educating visitors on the principles of sustainable tourism embodied in this element.
- I.5.2.2 The Town shall work with related entities to develop a program that incorporates educational information regarding its Green building, Clean Marina and wireless principles, among others, as illustrated within the Town.

J. PROPERTY RIGHTS ELEMENT – GOALS, OBJECTIVES, AND POLICIES

GOAL J.1

To ensure that property rights are incorporated in decision-making within Town of Marineland Commission’s decisions.

OBJECTIVE J.1.1 - PROPERTY RIGHTS

The Town of Marineland shall provide a framework for consideration of property rights in decision-making within the Town.

Policies

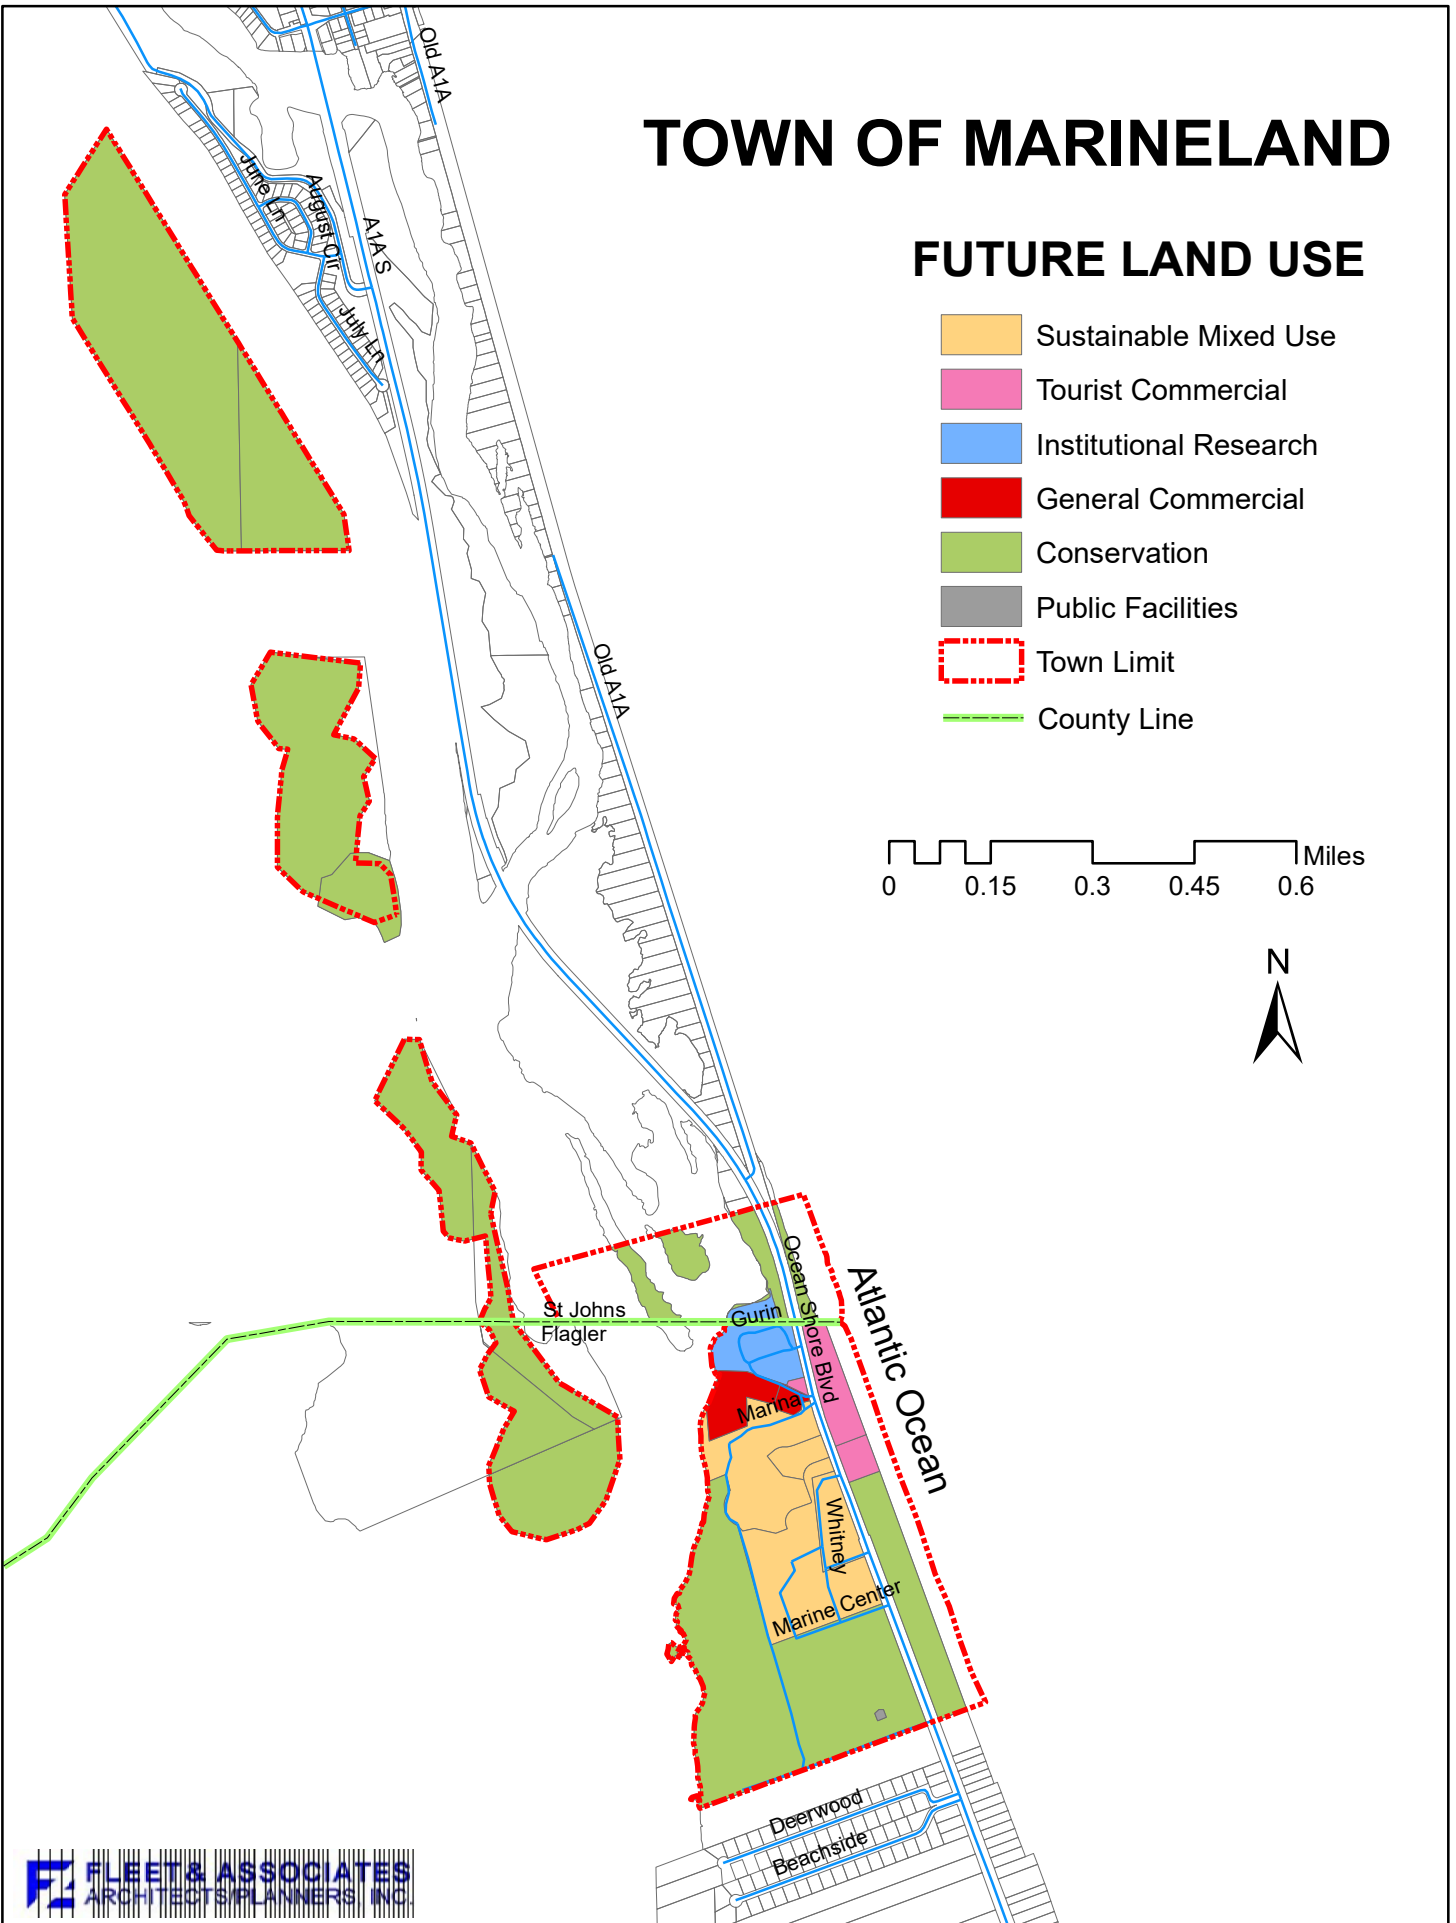

J.1.1.1 The following rights shall be considered in local decision-making:

- 1) The right of a property owner to physically possess and control his or her interests in the property, including easements, leases, or mineral rights.;
- 2) The right of a property owner to use, maintain, develop, and improve his or her property for personal use or for the use of any other person, subject to state law and local ordinances.;
- 3) The right of the property owner to privacy and to exclude others from the property to protect the owner’s possessions and property.;
- 4) The right of a property owner to dispose of his or her property through sale or gift.

**NOTICE OF PUBLIC
HEARING
ADOPT AMENDMENTS
TO MARINELAND
COMPREHENSIVE PLAN
SECOND AND FINAL
READING OF THE
ORDINANCE TO
ADOPT AMENDMENTS
TO MARINELAND
COMPREHENSIVE PLAN**

The Commission of the Town of Marineland, Florida proposes to adopt amendments to the Marineland Comprehensive Plan and have the Second and Final reading of an ordinance to adopt the amendments. The following Public Hearing on the amendments will be held:

Town Commission on Thursday, August 18, 2022 at 6:00 P.M. in the Main Conference Room at the GTMNERR (GTM Research Reserve) located at 9741 Ocean Shore Blvd, St. Augustine, FL 32080.

A copy of the proposed amendments is on file at the Coastal Policy Center, 9601 North Oceanshore Boulevard, Marineland, Florida and may be examined by interested parties prior to said public hearing. All parties having any interest in these amendments will be afforded an opportunity to be heard at the public hearings. If a person decides to appeal any decision made by the Town Commission with respect to any matter considered at the hearing, he will need a record of the proceedings, and for such purposes he may need to ensure that a verbatim record of the proceedings is made, which record includes the testimony and evidence upon which the appeal is to be based.

Water Supply Facilities Work Plan

Infrastructure Element Appendix A (2022-2040)

Prepared by:

Introduction

The St. Johns River Water Management District's (SJRWMD's) North Florida Water Supply Plan (NFRWSP) identifies the Town of Marineland (Town) as being within a Water Resource Caution Area (WRCA). Therefore, in accordance with Section 167.3177(6)(c), Florida Statutes (F.S.), the Town is required to adopt and maintain a water supply facility work plan, and update the comprehensive plan, as necessary, to implement the work plan and address water supply-related legislative requirements. The Infrastructure Element Policy D.1.3.3 contains enabling language that incorporates the work plan into the comprehensive plan.

This work plan addresses the planning period of 2022-2040 and, at a minimum, it will be necessary to update the work plan prior to the end of the planning period. In addition, in accordance with the Section 163.3177(6)(h), F.S., the Town must ensure coordination of its comprehensive plan with the plans of SJRWMD. Therefore, if SJRWMD updates its NFRWSP and affects the Town, it may be necessary to update the work plan during the planning period. Infrastructure Element Policy D.1.3.4 will ensure maintenance of the work plan and coordination of the Town's comprehensive plan with SJRWMD's plans.

Potable Water Supplier and Potable Water Service Agreements

The Town is not the public water supplier. The City of Palm Coast is the potable water supplier to the Town of Marineland, through JDI, Inc. The City of Palm Coast has an approved Water Supply Facilities Plan. The water supply for the Town of Marineland is accounted for in the Palm Coast Water Supply Facilities Plan.

The Town of Marineland is less than 2% of the City of Palm Coast's water usage. The City of Palm Coast supplies potable water to the Town of Marineland via two (2) water meters, a 2-inch meter and an 8-inch meter. The 2-inch meter is owned by the Marineland attraction and supplies water to the attraction. The 8-inch meter is owned by Jacoby Development and supplies water the remaining portions of the Town, including the University of Florida Whitney Lab facilities.

Palm Coast Water Utility

The City of Palm Coast owns and operates three (3) water treatment plants (WTPs). WTP No. 1 is classified as a lime-softening treatment plant with a permitted design capacity of 6.0 MGD. WTP No. 2 is classified as a membrane softening treatment plant with a current permitted design capacity of 7.58 MGD. WTP No. 3 is classified as a low pressure reverse osmosis treatment plant with a permitted design capacity of 3.0 MGD.

The current raw water source supplied to the three water treatment plants is defined as the Traditional Raw Water Supply, which consists of the confined surficial aquifer water for WTP No. 1 and WTP No. 3, and the upper Floridan aquifer water for WTP No. 2. The City is currently permitted for a total of 11.02 MGD from the Traditional Supply. This allocation is only sufficient to meet the City demand until 2023. The City is in the process of modifying the current Consumptive Use Permit (CUP) to add an allocation of alternative Supply to meet the projected demands through 2035.

Potable Water Sources, Demand, and Supply

The following chart, from the Palm Coast Utilities Department contains the potable water utilization for the Town of Marineland.

Marineland Potable Water Utilization

Month	2" meter	8" meter
Apr 2022	302,900	122,000
Mar 2022	278,800	166,000
Feb 2022	261,400	144,000
Jan 2022	255,200	163,000
Dec 2021	247,400	222,000
Nov 2021	254,500	150,000
Oct 2021	235,000	153,000
Sep 2021	247,700	144,000
Aug 2021	336,000	174,000
Jul 2021	388,600	101,000
Jun 2021	323,500	107,000
May 2021	381,200	103,000
Sub-total	3,512,200	1,749,000

Source: City of Palm Coast Utility Department

The total 12 Month usage for the Town of Marineland is 5,261,200 gallons. The annual Average Day Demand for the Town of Marineland 14,414.25 gal per day. The City of Palm Coast Average Day Demand is 8,210,000 gal per day. The Town of Marineland Usage 0.18% of the City of Palm Coast daily water usage.

The City of Palm Coast has ample capacity to provide potable water the Town of Marineland for throughout the planning period. Policy D.1.1.1 of the Comprehensive Plan sets forth concurrency management for water to assure ample water is available for future development.

Financial Responsibilities and Capital Improvements

The Town through its agreement with the City of Palm Coast has sufficient water supply to meet demand for the WSFWP's year planning period.

Non-potable Water Sources, Services and Facilities

Non-potable Water Sources

JDI, Inc. is the operator of the sanitary sewer system in the town limits. Comprehensive Plan Policies A.1.13.2, D.1.4.2, and E.1.6.4 prohibit the use of septic tanks in the Town. The Town does not have any reuse service areas in the town limits.

Non-potable Water Services and Facilities

Non-potable water service is not currently available within the Town's municipal limits and there are no plans to provide this service within the planning period of the work plan.

Water Supply Concurrency and Level of Service Standards

The Town is responsible for authorizing development within its municipal limits. Per Policy D.1.1.2, all improvements for replacement, expansion, or increase in the Town shall be compatible with the adopted LOS standard. Further, the Town reviews any new extension of water service for concurrency.

Water Supply and Facility Concurrency

The current legislative requirements for concurrency require that the Town's comprehensive plan and land development regulations to ensure that adequate water supplies and facilities are available to serve new development no later than the date on which the Town anticipates issuing a certificate of occupancy. In addition, the Town must, prior to the approval of a building permit, determine if adequate water supplies will be available to serve the development by the anticipated issuance date of the certificate of occupancy. Policy D.1.2.1 provides enabling language for water supply and facility concurrency and address the requirements of Section 163.3180(2)(a), F.S.

The Town's current and projected usage is consistent with the adopted LOS. The Town ensures compliance with the State's water supply and facility concurrency requirements (i.e., Section 163.3180, F.S.) through implementation of Policies D.1.3.3 through D.1.3.5.

Water Conservation Practices

The Town currently implements water conservation practices, including some that are enabled by Comprehensive Plan policies. Objective D.1.3 and Policies D.1.3.3 through D.1.3.6 promote water conservation within the Town by promoting water saving techniques.

Water Source Protection Practices

Protection of water sources is important to ensure the quality and quantity water. The Town's water source protection practices include the following:

Policy A.1.13.2, D.1.4.2, and E.1.6.4 prohibiting new septic tanks to protect groundwater.

Hi there,

We're removing the burden of recycling from cities.

Replenish has partnered with brands like PepsiCo, Walmart and Ball Corporation to purchase recyclable materials directly from communities in Florida, helping turn your recycling program from a cost into revenue-generating.

Are you the right person to talk to about this?

P.S. [Read about how Ball Corporation is getting involved](#)

Town of Marineland
Financial Narrative
As of August 15, 2022

Both the Marina and Town financials continue to be in good standing. This month, a small amount (\$2,754) of ARPA funds were received. The town is currently at the budgeted spending amount with 1.5 months remaining in the fiscal year. This means the Town will have a small budget overrun over however, there are ample reserves to fund operations.

Monthly Highlights and Comments:

Final round of ARPA funds received from the State (\$2,754)

Town credit card is operational

Fixed asset listing was created to track the Town's assets

Quarterly loan payment was made

Owed by CRA:

There are currently no amounts owed by the CRA
